Hi Makayla,

There is an article in the paper today (attached below) regarding a project in San Antonio on the RiverWalk. A company, Toro Blanco Group <https://www.toroblancogroup.com> is helping the City to boost cell service in the area at no cost to the City. Toro Blanco is paid by the companies that provide cell service.

I am wondering if this might be an option the Utility Commission might want to look into for Rollingwood. Could you please forward this email to the Utility Commission members?

Thanks,
Victoria Johnson
