Dog Park

Hi - I'm currently traveling outside the country, but my wife shared the letter about the dog park.

In theory, I like keeping the large dog park. It makes the best use of the land (little league only uses it a small fraction of the available time) and it a great place for social interactions in the neighborhood.

BUT in your list, I would actually vote for **D** - taking the back parking lot and half of the current fields. Mainly just to end this discussion. I'm not sure how any little league dad could complain about having three dedicated fields.

And we are happy to donate money to help with the construction

Thanks for your help with this,

Stephen M Tarleton
