Hi all! I am writing in favor of neighborhood coffee trucks (and all trucks for that matter); AND finding a reasonable solution for the neighborhood dogs and ball fields.

Firstly, I think neighbors should be allowed to host coffee trucks in their private driveways without asking the city for permission. I attended the last truck a few weeks ago and found it to be a wonderful neighborhood gathering where I talked with old friends and got to meet new friends. It would be shameful for the council to restrict anything that promotes neighborhood camaraderie.

Secondly, an appropriate solution to separating the ball fields from an off-leash dog area should be a council priority. Kids deserve a clean place to play, and dogs deserve a safe area to run. Please work together to establish a solution that works for all of our neighbors.

My hope and belief is that council will do the right thing, and listen to the input of the community it represents

A concerned neighbor,

Erika Richardson
