As a longtime dog owner and Rollingwood resident I prefer option A) Status quo EXCEPT unless there is a reason I do not want to see the back parking lot paved.

NOTE:

1. I have seen the field impacted by trash such as snack remnants left on and by the field (by softball players and spectators?).
2. Yes, dogs, deer and other critters do poop on the field. However, dog owners are very responsible about picking up their dog's, as well as other owners' dogs, poop. What do softball parents tend to do about the poop of deer and other critters?
3. Paving the parking lot will increase runoff. Will this impact the downstream areas both in quantity and quality?

Thank you,
Anne Turner
