Introductory Questions

Q1: Are you generally satisfied with the trend of new construction in Rollingwood? Please mention what you do and/or don't like about building trends, be specific.

Answered: 269 Skipped: 5

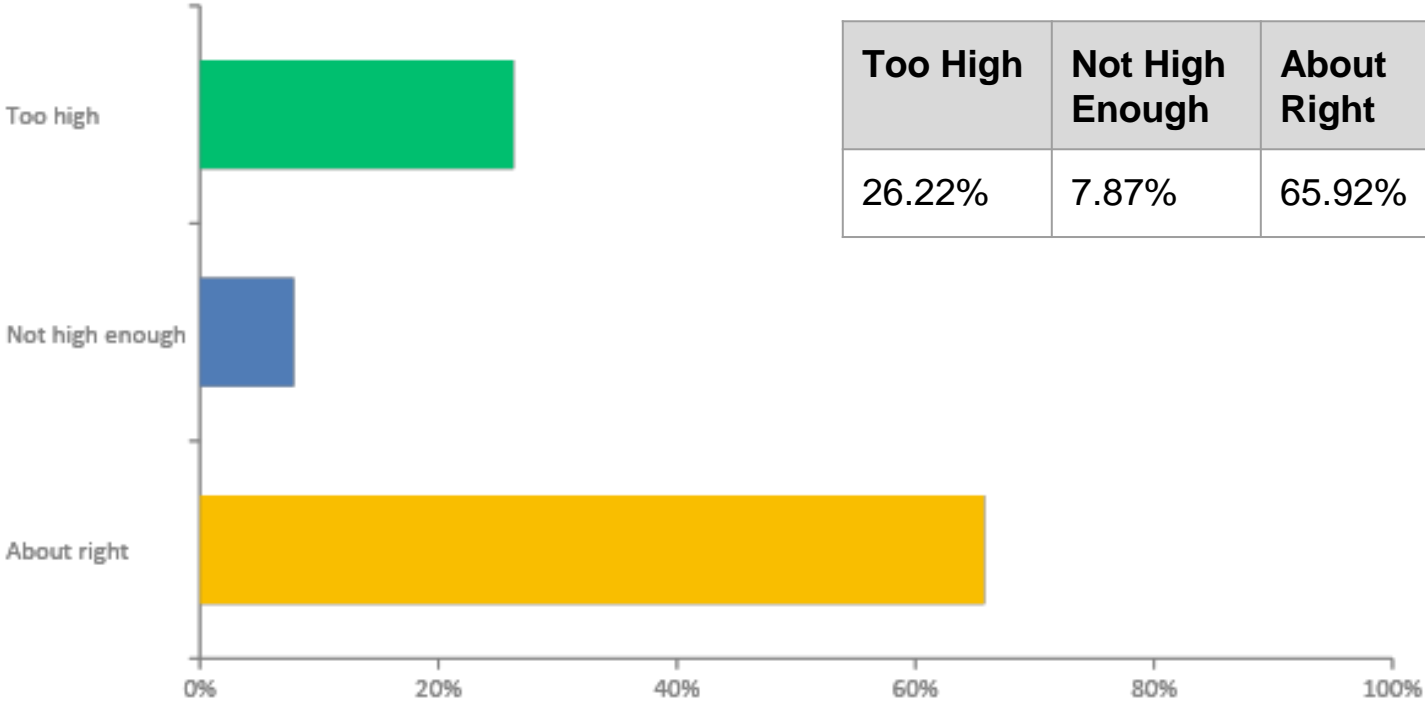

**Q2: Do you think Rollingwood should consider changes to its building codes?
Please mention specifically what you do and/or don't like about building codes. If
you are not sure, the rest of the survey may help clarify current codes and issues.**

Answered: 254 Skipped: 20

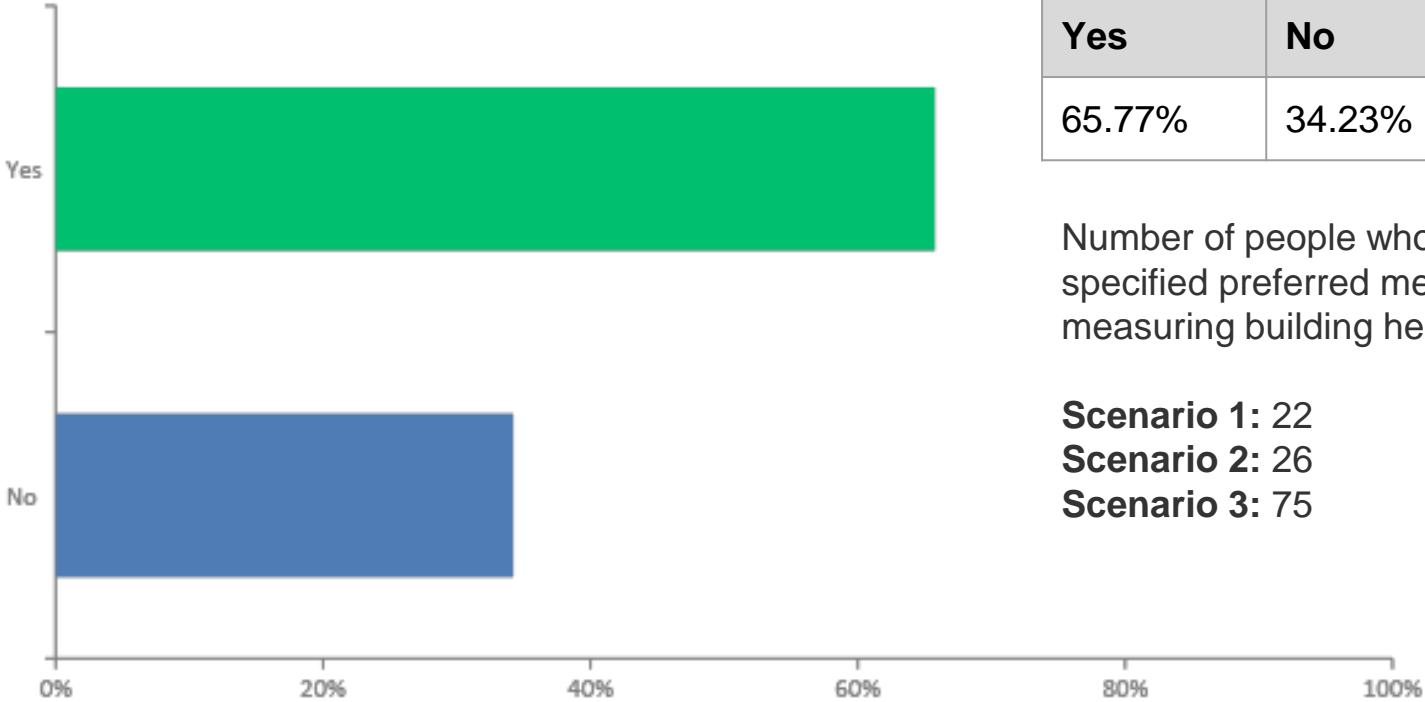

Building Height

Q3: Is Rollingwood's maximum residential building height of 35 feet...

Answered: 267 Skipped: 7

Q4: Should we look at alternate ways to measure building height? If so, which of the ways listed above would you prefer? Please write in your answer under the comments and specify Scenario #1, #2, or #3.

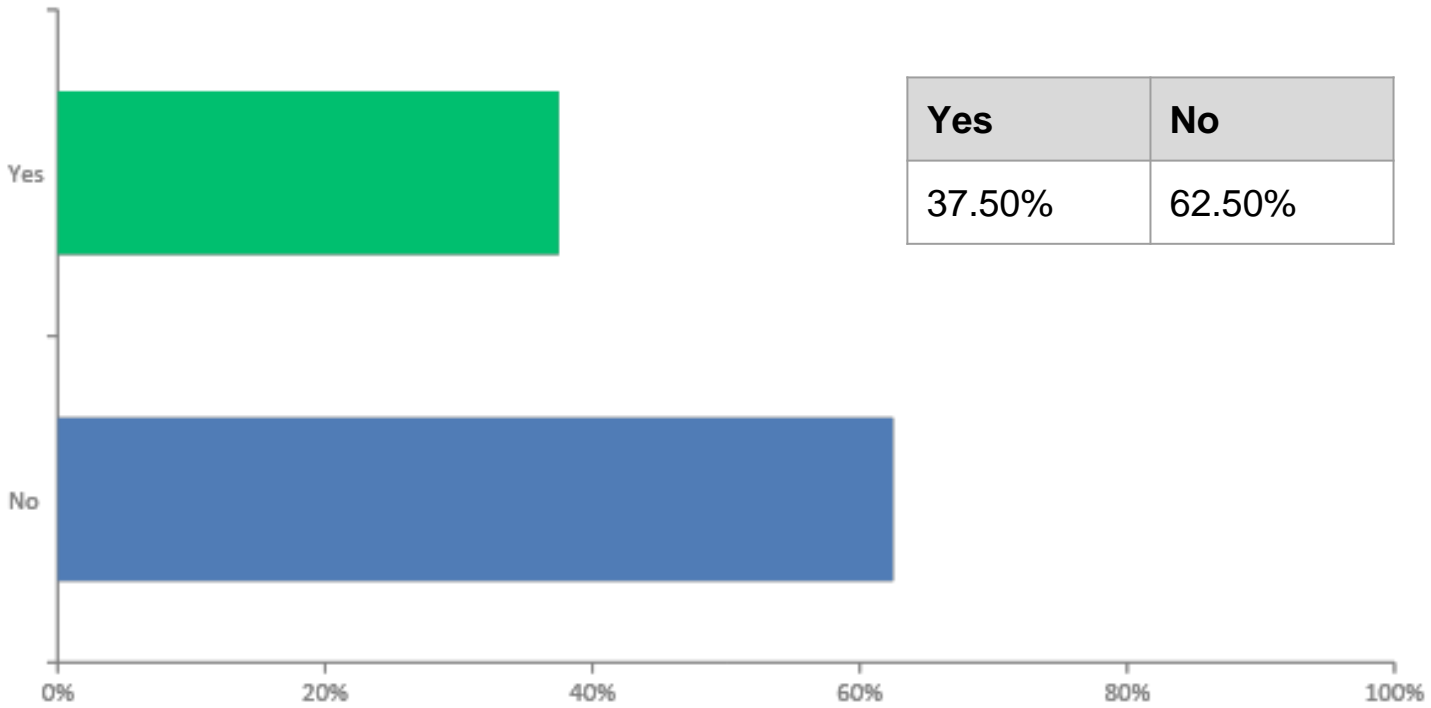

Yes	No
65.77%	34.23%

Number of people who specified preferred method of measuring building height:

- Scenario 1:** 22
- Scenario 2:** 26
- Scenario 3:** 75

Answered: 260 Skipped: 14

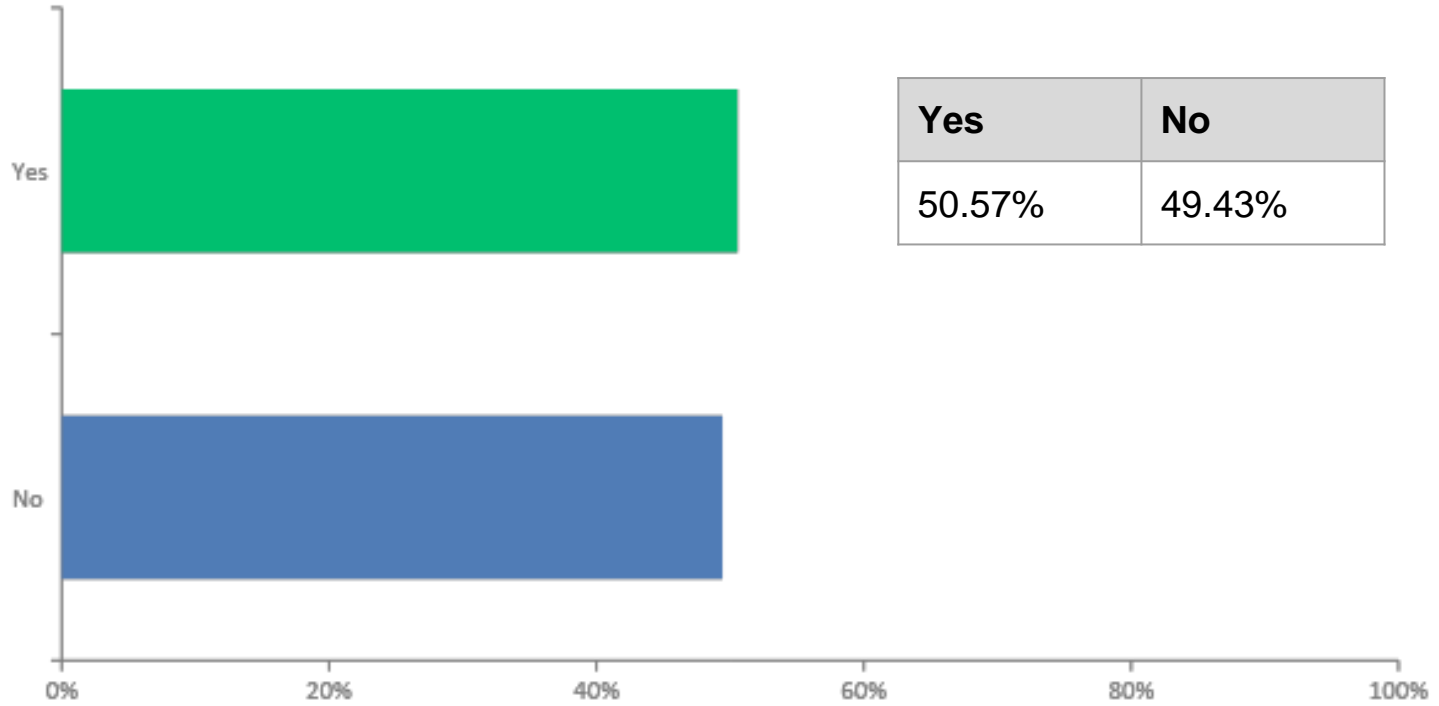

Q5: Should we measure the maximum height of a home with a flat roof differently from one with a pitched roof?

Answered: 264 Skipped: 10

Floor-to-Area Ratio

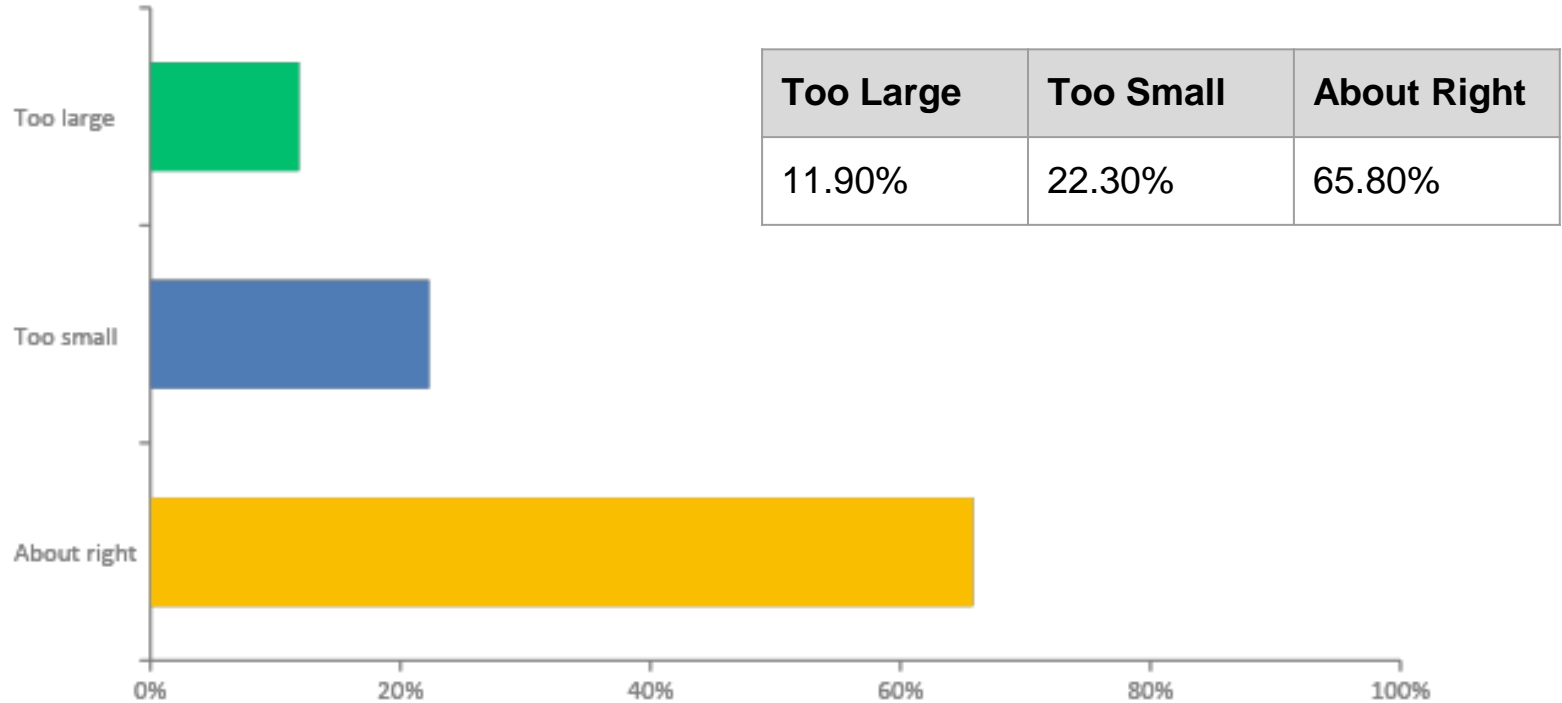

Q6: Should we consider adding FAR and/or ratio of building footprint to lot size to Rollingwood's building code?

Answered: 265 Skipped: 9

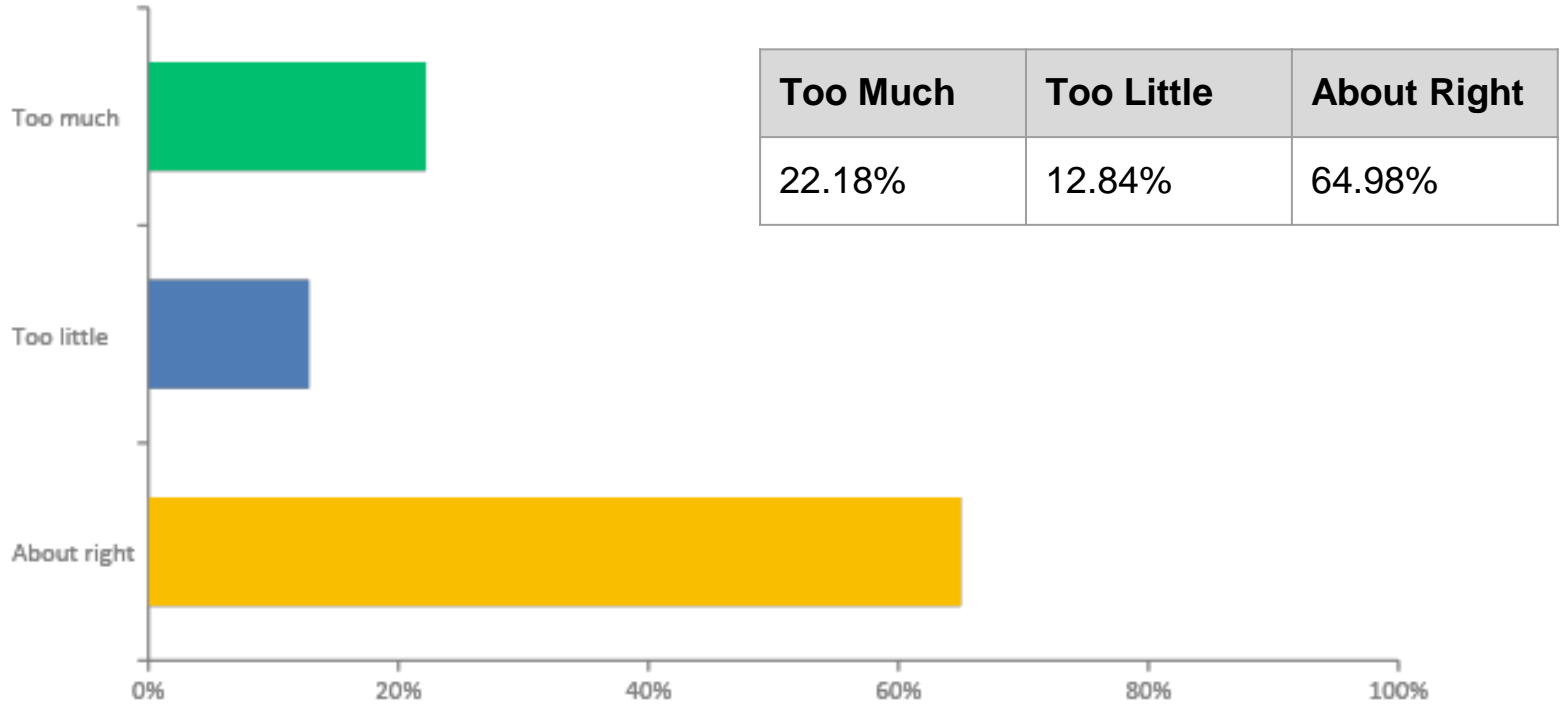

Setbacks

Q7: Please indicate your feelings on Rollingwood's current setback dimensions, and clarify in the comments if you have thoughts or concerns specific to front, side, or rear.

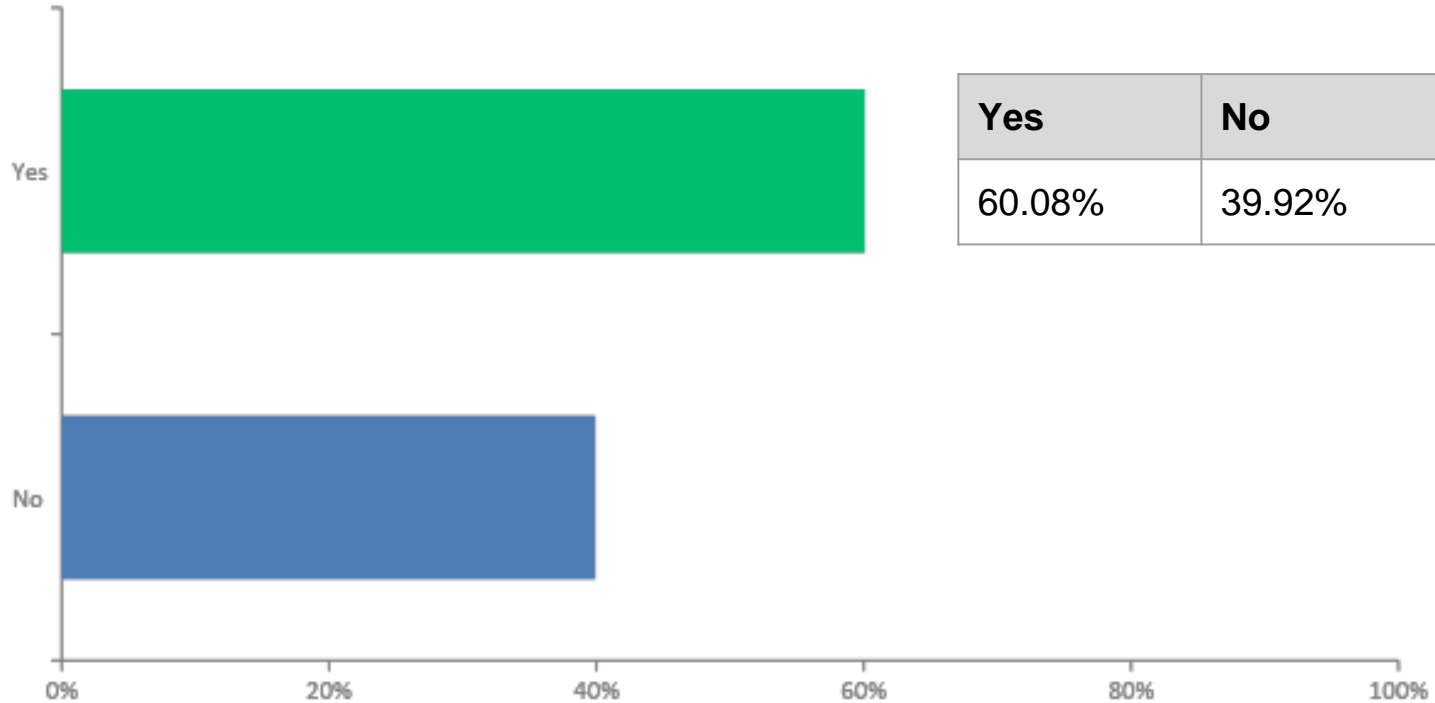

Answered: 269 Skipped: 5

Q8: Please indicate your general feelings on the new setback projection limits described above, and clarify if you have concerns specific to roof or bay window projections.

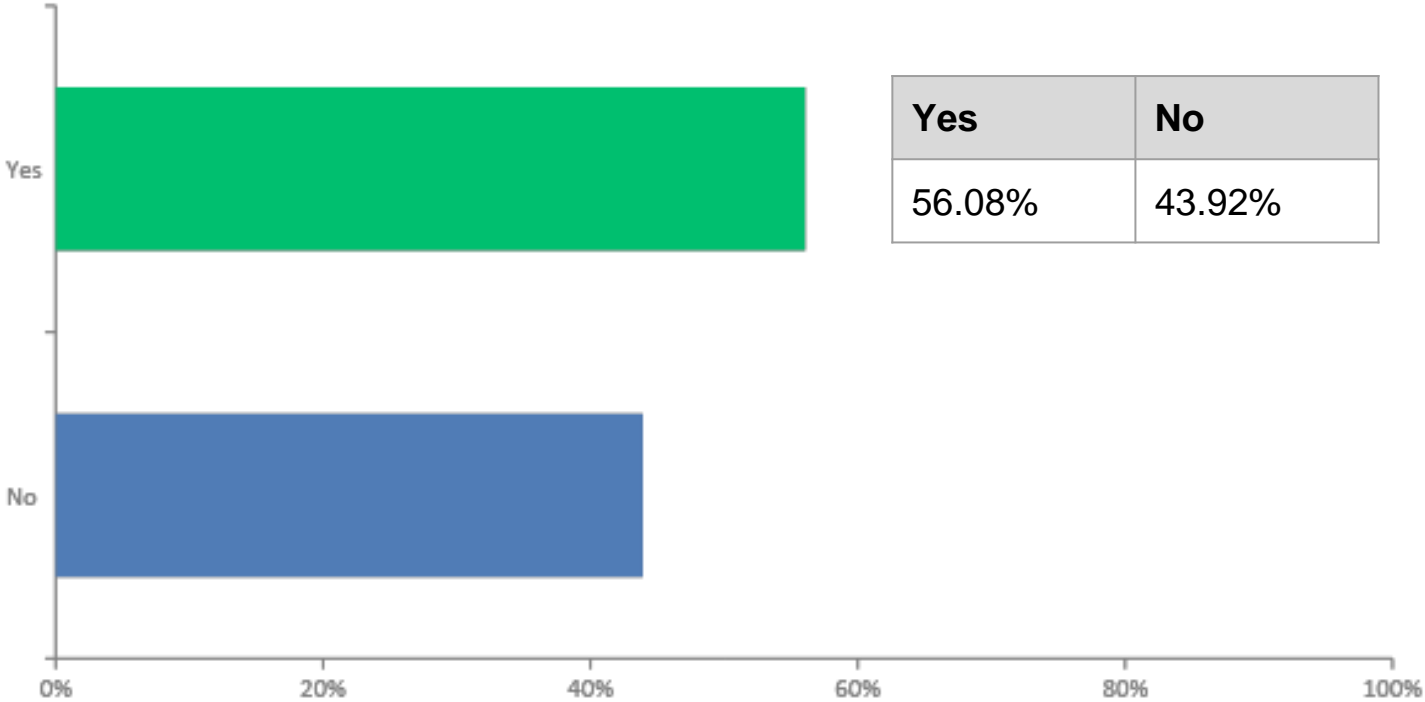

Answered: 257 Skipped: 17

Q9: Should we consider any limitations on what can be built along a setback?
Please indicate in the comments any specific thoughts on the bullet points listed above.

Answered: 258 Skipped: 16

Q10: Should we develop a set of “tenting” rules for Rollingwood that restrict building height along a setback?

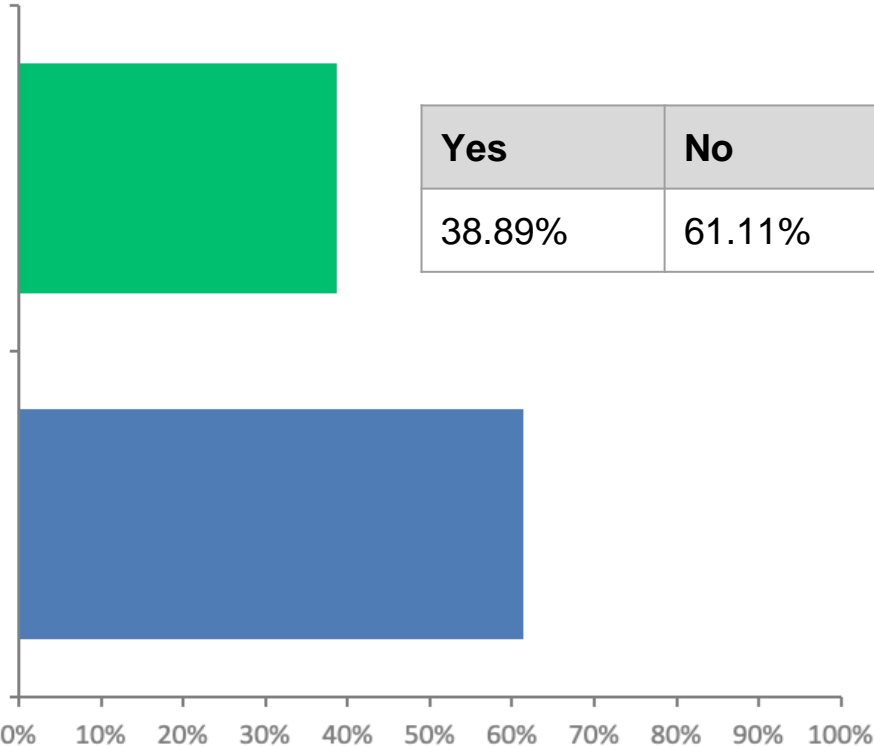

Answered: 255 Skipped: 19

Stories

Q11: Should we limit the number of allowable stories?

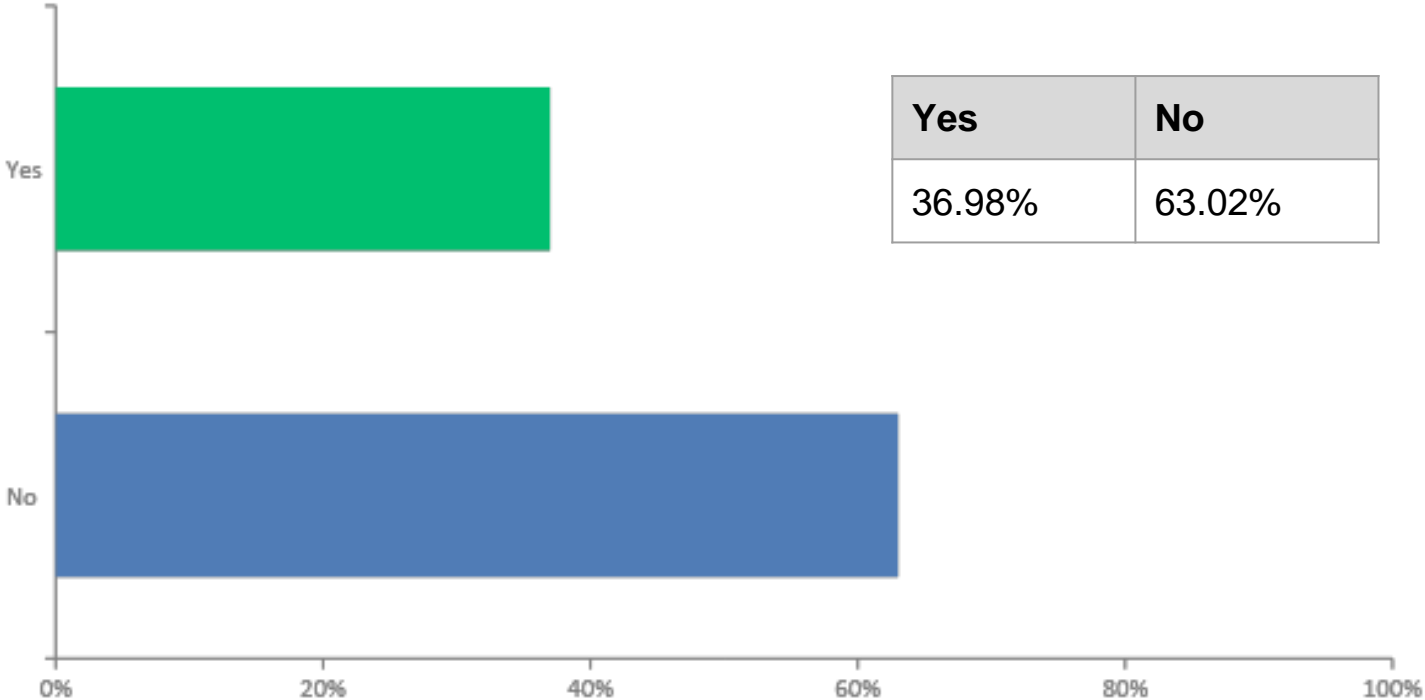

Yes - limit residences to a number of allowable stories (Please state number of preferred stories in the comment box.)

No - no limit to the number of stories, provided that the residence meets all other code requirements such as the 35-foot height requirement.

Answered: 270 Skipped: 4

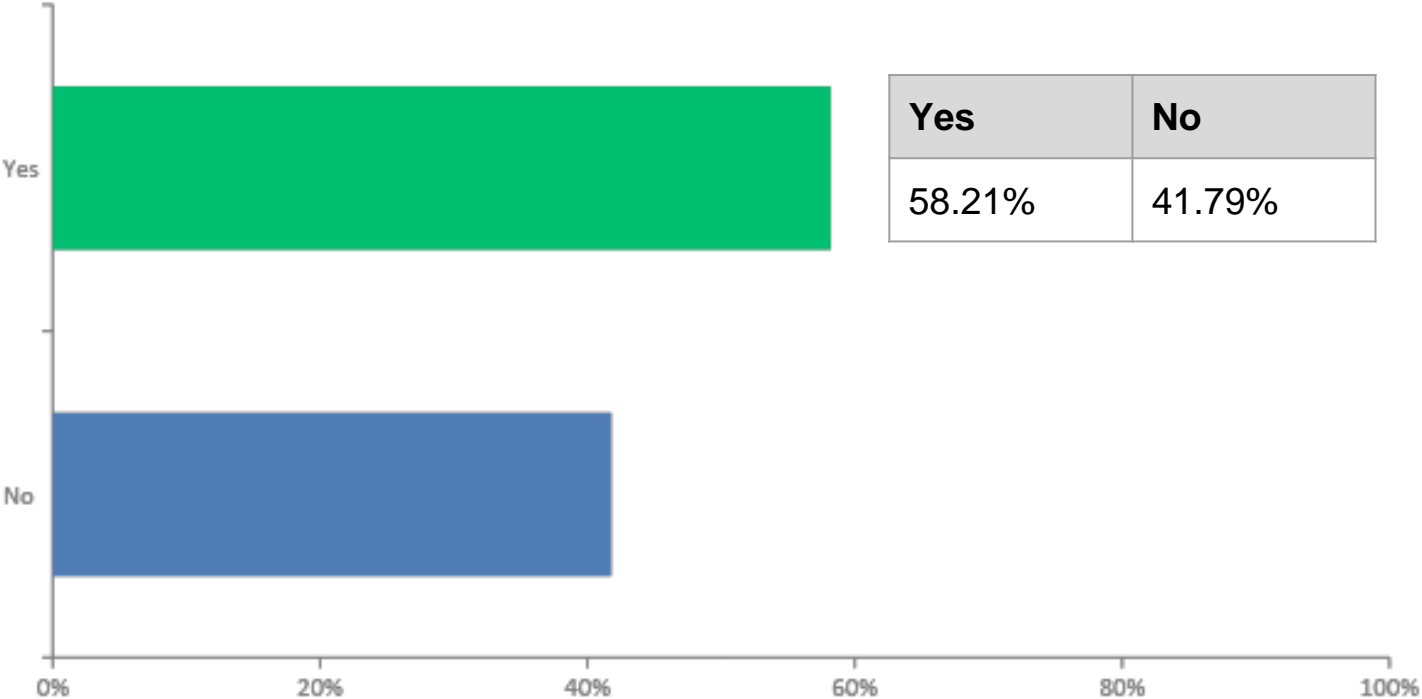

Q12: Should we restrict overall area of additional floors above a certain level?

Answered: 265 Skipped: 9

Circular Driveways

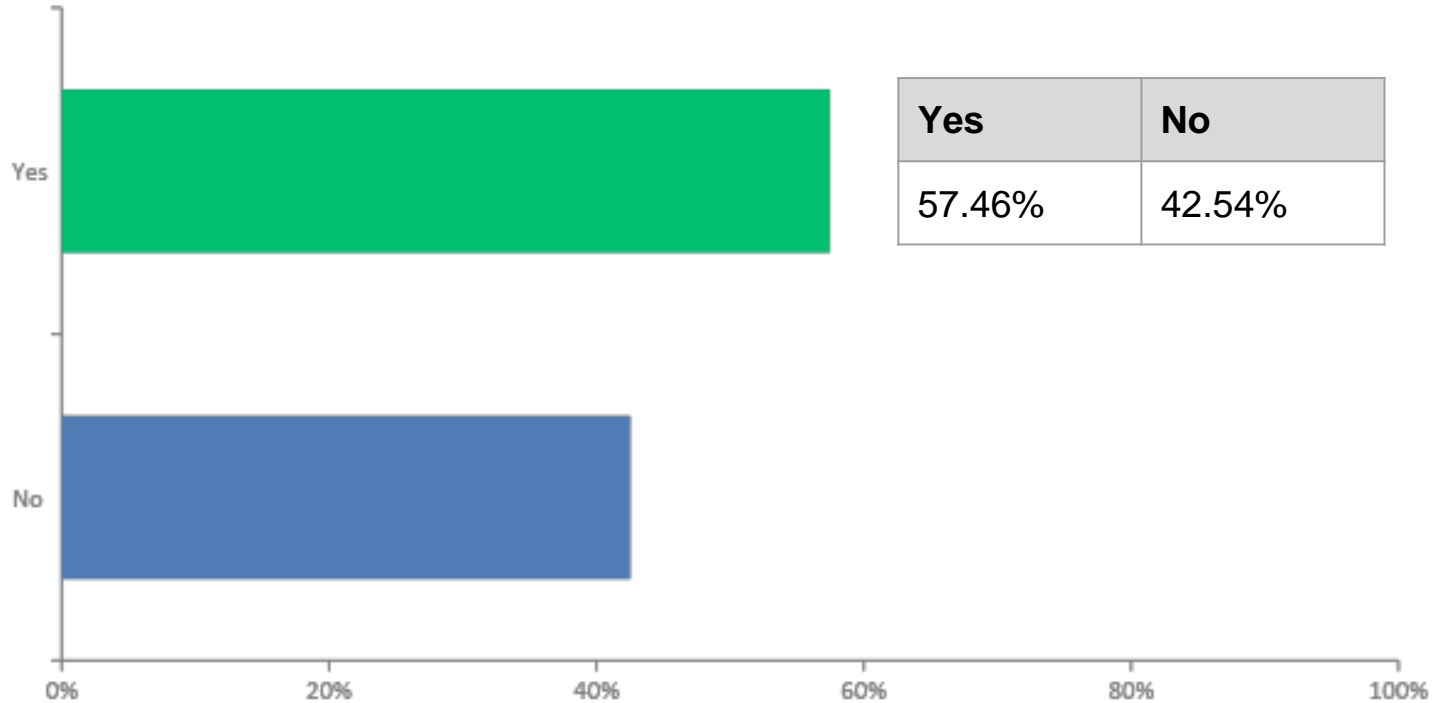

Q13: Should we reconsider code limitations placed on circular driveways for a corner lot that connects two streets?

Answered: 268 Skipped: 6

Light Pollution

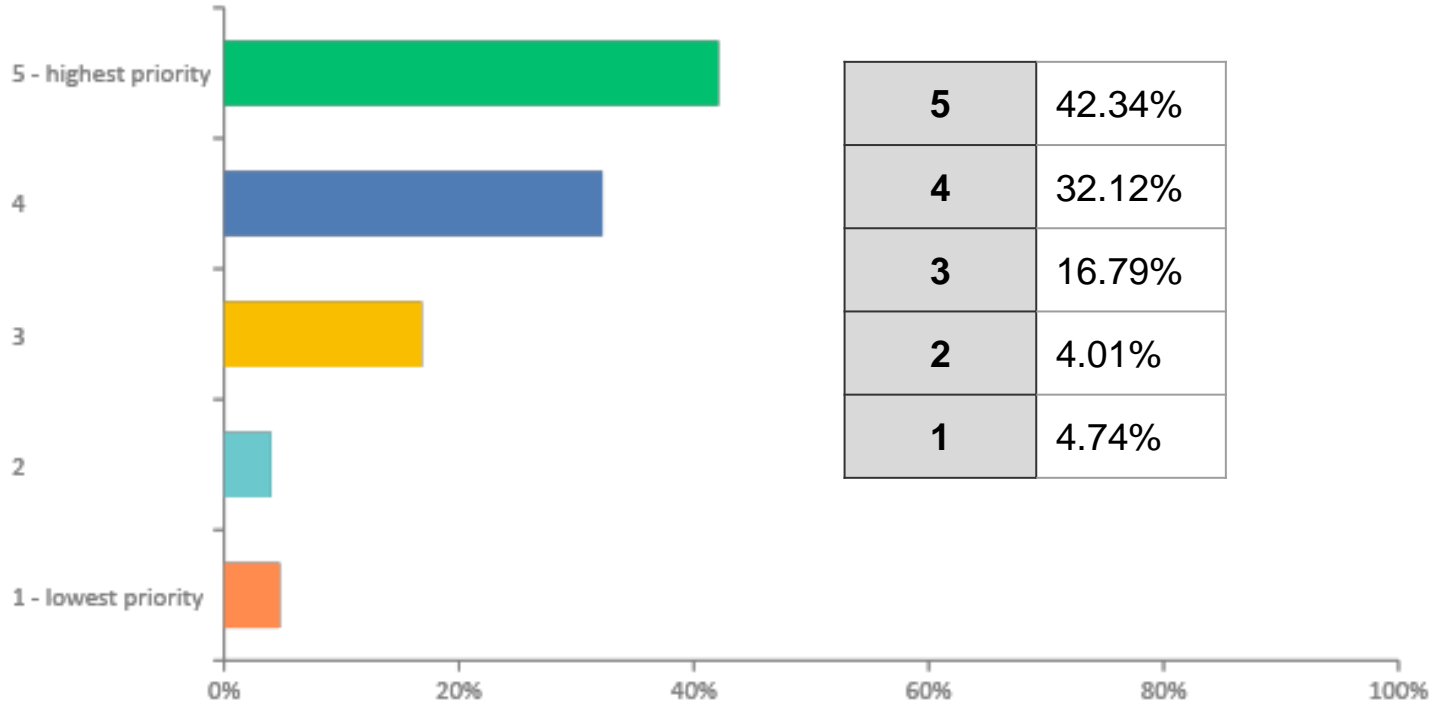

Q14: Should we examine some aspects of a Dark Sky initiative in our residential code that may include Exterior and Landscape Lighting?

Answered: 268 Skipped: 6

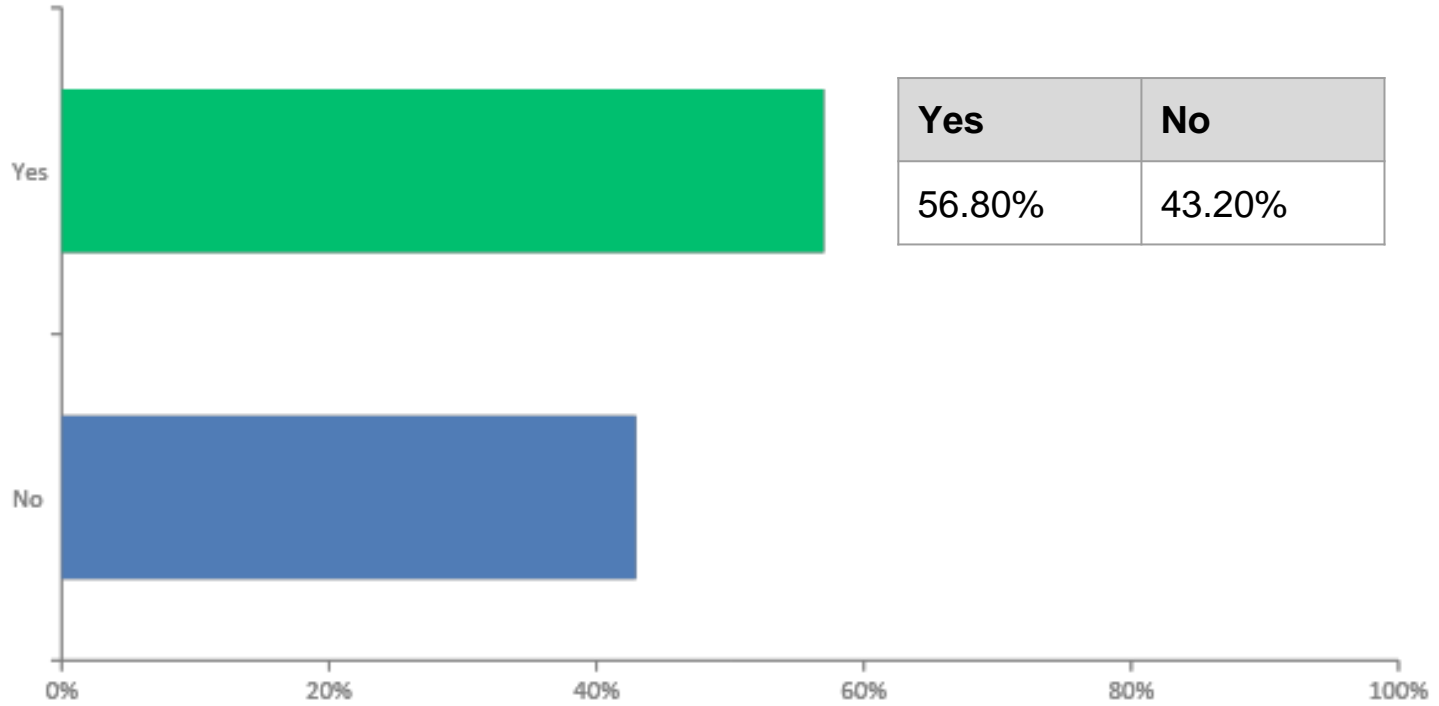

Trees

Q15: How much of a priority to you are the trees in Rollingwood on a scale of 1 to 5, with 5 being the highest priority?

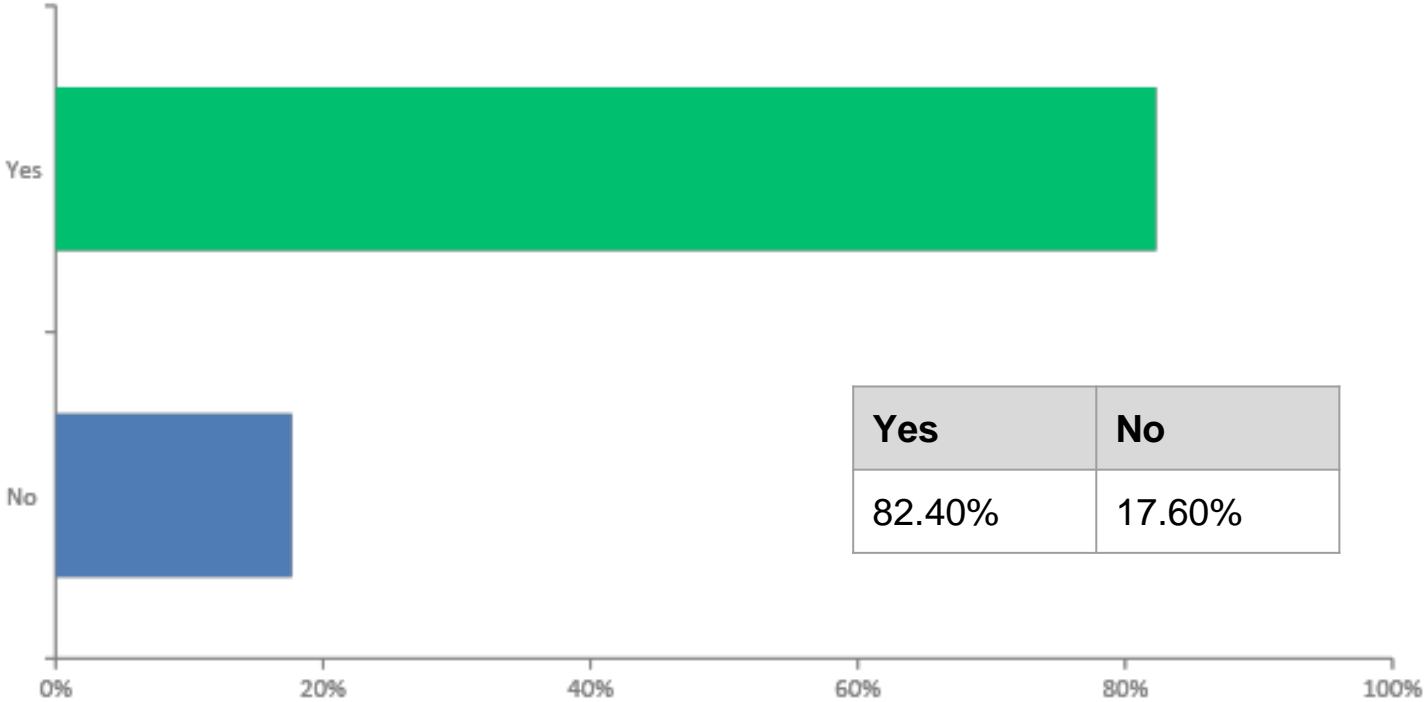

Answered: 274 Skipped: 0

Q16: Is our current tree ordinance doing enough to save protected and Heritage trees?

Answered: 250 Skipped: 24

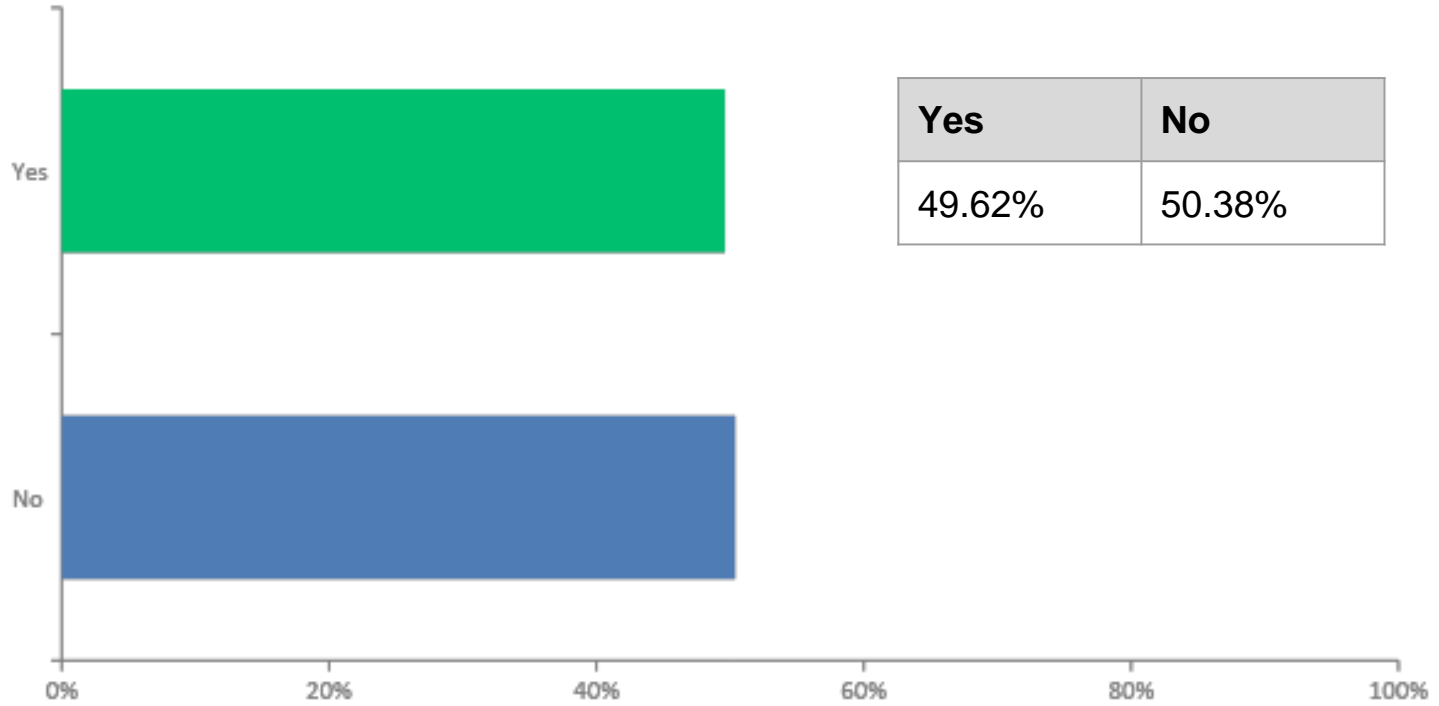

Q17: Should we consider a plan sponsored by the city, or private donations, to plant additional trees, with owner approval, in public ROW?

Answered: 267 Skipped: 7

Zoning by Topography

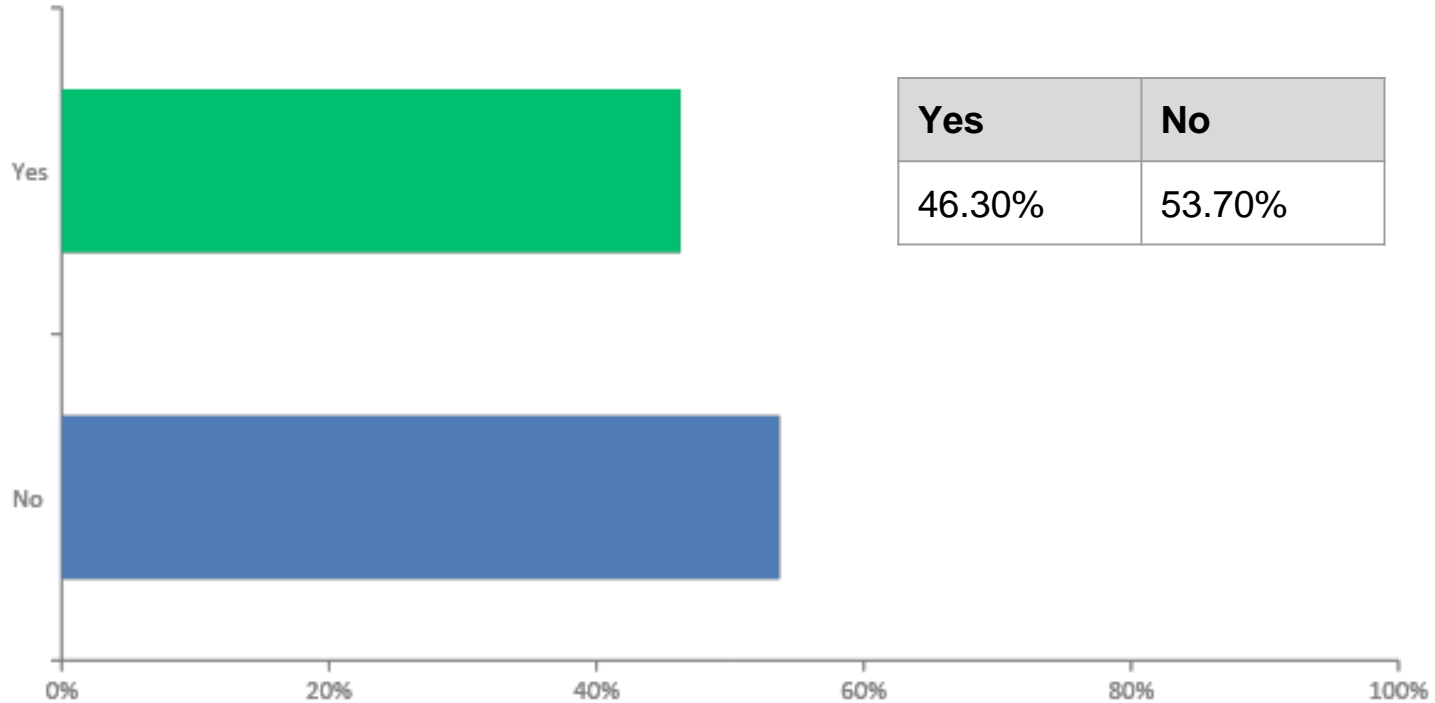

Q18: Should we consider the creation of special zoning districts for unusual lots?

Answered: 266 Skipped: 8

Fencing

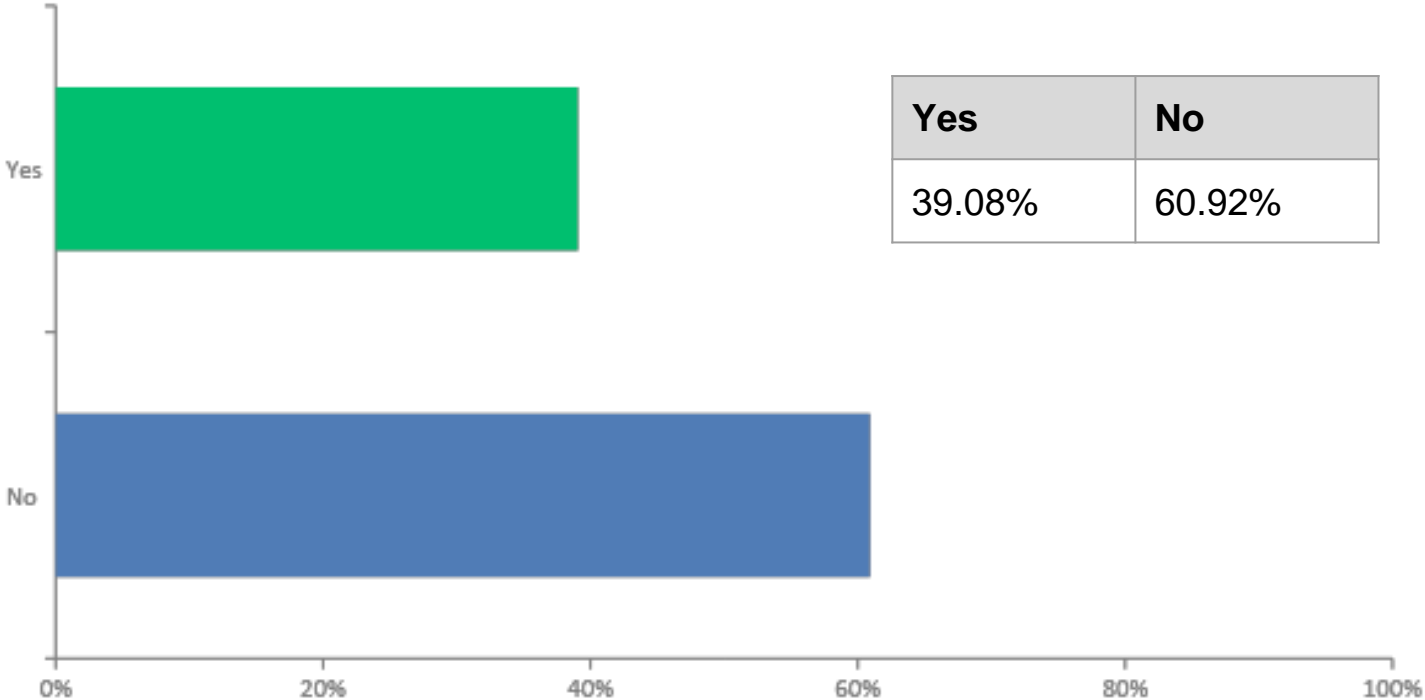

Q19: Should there be a height limit on side and backyard fences?

Answered: 270 Skipped: 4

Impervious Cover & Drainage
