Gavin Massingill, Mayor

ATTEST:

Desiree Adair, City Secretary

Appendix A: Fee Schedule

FEE SCHEDULE

ARTICLE A1.000. GENERAL PROVISIONS

Sec. A1.001. Scope.

The fees listed in the fee schedule shall be charged and collected by the city for the activities or uses indicated.

Sec. A1.002. Conflicting provisions.

This fee schedule, and in particular the fees set forth herein, controls over and supersedes any conflicting provisions in the city code.

Sec. A1.003. Payment of consultant fees.

- (a) Payment required. All applicants shall pay all consultant fees incurred by the city that are associated with their applications referenced in the following articles (A2.000 and A3.000). No approvals will be issued in connection with their applications until all required fees have been paid to the city, regardless of the method used for collection of such fees.
- (b) Payment of deposit. When consultant fees are anticipated to be substantial, the city secretary or building official upon receipt of an application, may establish a deposit amount that is equivalent to the projected consultant fees to be incurred in connection with the application. The applicant shall deposit this amount with the city prior to any review, inspection, processing or other work being initiated by the city. A revised deposit amount may be established at any time when consultant fees are substantially different than originally projected, and additional amounts payable or refundable will be due at the time of issuance to the applicant of notice of a revised deposit amount. When a deposit is established, the application will not be considered as filed or complete until the deposit is paid. When a deposit is paid, all consultant fees incurred by the city that are associated with the application will be charged against this deposit. Upon completion of the consultant activities, the applicant shall pay any fees incurred by the city in excess of the deposit. Any excess deposit remaining after the payment of all consultant fees will be returned to the applicant.
- (c) Alternate procedure for substantial consulting fees. For large or complex development projects and other applications where an estimate of fees is determined to be impracticable, the city secretary, city engineer, public works director or building official will provide a list of the types of review, inspections, and determinations to be made by city consultants, together with hourly or customary fees charged by relevant consultants for the work. In the case of any ongoing inspection or review activities, such as utility construction review, a description of the anticipated incidence of such consultant work may be provided. In cases with protracted consultant activity, periodic invoices for costs incurred by the city may be issued to the applicant and shall be due and payable within 30 days of the issue date.

ARTICLE A9.000. WATER AND WASTEWATER FEES

Sec. A9.001. Water capital recovery fees.

- (a) Water fees. The city will collect, on behalf of Austin and pursuant to that certain "2000 Agreement for Wholesale Water Services Between the City of Austin and the City of Rollingwood" dated effective February 3, 2000, Austin's then-current water capital recovery fee from the city's customers for each service unit connected to the city's water system at the time the connection is made. The amount of the fees shall be calculated per service unit in accordance with the provisions of chapter 25-9 of the 1999 Austin City Code, as adopted by Austin. The number of service units for which the fee is charged shall be calculated per service unit in accordance with the provisions of chapter 25-9 of the 1999 Austin City Code, as adopted by Austin.

Sec. A9.002. Water and wastewater tap fees.

- (a) Water tap fee (per service unit): \$3,400.00.
- (b) Residential wastewater tap fee: \$3,500.00. In addition, the following shall be added to the wastewater tap fee:
 - (1) All capital recovery fees and other charges for new service units that are in excess of the total amount of \$1,400.00 charged by the City of Austin ("COA") pursuant to that Agreement for Wholesale Wastewater Service between COA and the City of Rollingwood dated January 27, 1999, as may be amended or extended from time to time; and
 - (2) An amount equal to 110 percent of the actual cost to the city to install a connection from the nearest available wastewater line to the boundary of the property (including the cost to restore affected street pavement and curbing).
- (c) Nonresidential wastewater tap fee (per service unit): \$8,500.00.
- (d) Service unit table:

<i>Water Meter Size</i>	<i>Type</i>	<i>Service Units</i>
5/8"	Positive displacement	1
3/4"	Positive displacement	1.5
1"	Positive displacement	2.5

- (e) Expedited fee. Installation of taps and connections for water and wastewater service is scheduled in the order a request and payment of fees is provided to the city, and in the reasonably expeditious regular course such services are provided by the city. Installation shall be arranged on a priority expedited basis upon request and payment of an additional fee calculated as follows:

The applicable tap fee will be increased by the cost charged to the city by the city's designated third-party provider of service for the work of making the requested connection to the city's system. Such additional charge shall be the cost to the city of labor provided by the city's designated third-party provider; there shall be no additional charge for regular materials or fixtures included in the standard tap fee.

Sec. A9.003. Wastewater service rates.

- (a) Rates. The rates to be charged by the city for wastewater collection and treatment services to its customers will be:
- (1) Residential customers. \$13.07 base rate per month, plus \$7.81 per 1,000 gallons based upon the current winter average.
 - (2) Commercial customers. \$91.07 per living unit equivalent, as that living unit equivalent is defined by policy of the city, assigned to the customer per month, plus \$7.81 per 1,000 gallons of water usage as measured monthly.
- (b) Winter average calculation.
- (1) Each year, the city will determine each customer's winter water usage during the months of November, December, January, February, and March and calculate an average monthly water usage based on usage during such winter months. There will be a minimum average of at least 1,000 gallons. This average will be used to calculate the customer's volume wastewater charges until the next year, when the average will be recalculated. In addition, each year the city will determine an average during such winter months of monthly residential usage by all residential customers. Such average will be used to calculate volume charges for a customer who did not purchase water from the city for the entirety of the most recent winter average period, including those whose water supply is provided by one or more water wells.
 - (2) For any residential connection that does not have adequate prior water use history from which to determine an accurate average, including those customers who do not purchase water from the city, the default average use shall be the average monthly usage of all residential water customers last determined pursuant to subsection (b)(1) of this section. Actual winter water usage for such a residential connection shall be utilized when/if the calculation is made the following year. Neither the

city nor a customer shall be entitled to any adjustment for previous bills based on recalculation after employment of the default rate.

- (3) For residential customers with residential irrigation meters, water use of both household and irrigation meters shall be aggregated to determine the winter average water use.

Sec. A9.004. Water service rates, fees and deposit.

- (a) Water demand charge. The fees to be charged by the city for services provided to each customer during each monthly billing cycle are as follows:

<i>Meter Size</i>	<i>Monthly Fee</i>
