Line Item No. & Description or NEW Line Item Description	5495 - Vehicles

Item Description:

New Public Works Gator
40% Water - \$7,200
30% Wastewater - \$5,400
15% Streets - \$2,700
15% Parks - \$2,700

Description of Benefit from Purchase (Improved Service, Lower Cost, etc.)

The current Gator Public Works has is inadequate and lacks the power to keep up with a daily work routine. The cost to repair and maintain this piece of equipment is unsustainable. This Gator was inherited from the police dept and has served its purpose. The city could put this Gator up for sale and retrieve some money to put towards the new Gator.

Item Description:

New Backhoe/Tractor
40% Water - \$30,000
40% Wastewater - \$30,000
20% Streets - \$15,000

Description of Benefit from Purchase (Improved Service, Lower Cost, etc.)

The current tractor Public Works has is inadequate; it will constantly blow fuses while in transit with a load. This poses a safety issue as it can stall going up or down a hill, causing it to roll forward or backwards and possibly cause an accident. The hydraulic system is in need of a major repair and the amount of money that will be needed to keep up with the maintenance of this machine would be better suited in investing in another tractor. Existing tractor can be sold and revenue can be used towards new machine. The new tractor will be of improved service and illiminate unneeded risk and safety issues.

Item Description:

Assign unused existing computer or purchase new computer if no unassigned existing computer to be used by residents to review building permit applications.

Description of Benefit from Purchase (Improved Service, Lower Cost, etc.)

This would allow a resident to review building permit files on a computer at city hall on a stand alone computer to be loaded with the permit files. Currently, this process requires a staff person to contribute their computer to review these files. A stand alone computer allowing for review would free up staff time and provide an easier and quicker process for residents to review building permit files.

NEW PUSH CAMERA & SONDE

Wastewater- 100% - \$12,000

Description of Benefit from Purchase (Improved Service, Lower Cost, etc.)

Public Works currently does not have any type of video equipment to inspect pipes (sewer, storm drains, etc...). The camera creates HD video inspections with audio comments, text descriptions, footage, date, and timestamps. These features are essential when marking locates for new utility projects, inspection of sewer line laterals, issues with storm boxes, and drains. This piece of equipment should eliminate the need for having to hire a company to come in and inspect a small project which is not always feasible.

\$75,000 to fund street repairs in accordance with a Pavement Condition Assessment that is budgeted for in the FY 2022-2033 budget. The expenditures in the street department are funded by the Street Maintenance Sales Tax. These revenues are accounted for in Fund 301, the Street Maintenance Fund.

Description of Benefit from Purchase (Improved Service, Lower Cost, etc.)

A portion of the City's sales tax goes specifically to fund street maintenance. A Pavement Condition Assessment has been proposed in the FY 2022-2023 budget, which will provide the city with data about the conditions of our roads and when and what kind of maintenance is needed to keep them in good condition. If approved, this would become an annual expenditure to fund the projects that the assessment has identified as being the most critical in that year. This item will allow the city to get ahead of necessary road maintenance and provide stability in budgeting for future pavement repair needs.
