Attach letter signed by owner authorizing agent to act on the owner's behalf

Explain variance request

Time of work restriction variance request. We request to conduct interior "finish" construction (tile, paint, wall trim, ect) after the hours of 7pm Monday-Friday and request permission to conduct similar work on Saturday/Sunday.

Construction complete 12/15/2020

Attach 11"x17" Site Plan showing property as it is and with proposed improvements drawn to scale

Cite ordinance applicable to variance request

Justify variance requested and explain hardship if variance is not granted

Ownership group wants to expedite construction and open prior to the 1st
of the year. If not granted, construction will continue through mid-January.

Application is hereby made to the City of Rollingwood Board of Adjustment to request a variance as outlined above, and as contained in attachments to this application, and to request public hearing on this variance request at 403 Nixon Dr in Rollingwood, TX, on the date as set by the Board. I agree to attend such hearing to represent this variance request and respond to the Board's questions or requests for additional information and documentation. If I am not able to attend the hearing, I will appoint an agent to represent me at the hearing and will submit to the City prior to the hearing written authorization for that agent. I certify that this requested variance is in full conformity with and not contrary to any deed restrictions associated with my property listed herein. I DO SOLEMNLY SWEAR that to the best of my knowledge the above statements concerning this application are true and correct, and the undersigned has reviewed, understands and approves the request for a variance as stated.

14.02.810 Variances

(a) The board may authorize upon appeal, in specific cases, such variances from the terms of this article as will not be contrary to the public interest, where, owing to special conditions, literal enforcement of the provisions of this article will result in unnecessary hardship, and so that the spirit of this article shall be observed and substantial justice done, including the following: (1) Permit a variance in yard requirements where there are unusual and practical difficulties or unnecessary hardships in complying with such requirements due to an irregular shape of the lot, or topographical or other conditions. (2) Permit a variance from the requirement[s] of this article governing the construction or alteration of buildings or structures, whenever a property owner demonstrates that a strict application of such requirements will impose upon him unusual and practical difficulties or particular hardship.

(b) Prior to granting a variance in a zoning district other than a residential district, the board must find that: (1) The variance is the minimum variance that will make possible the reasonable use of the land, building or structure; (2) Granting the variance will be in harmony with the general purpose and intent of this article and will not be injurious to adjoining properties or the neighborhood, or be otherwise detrimental to the public welfare; (3) Literal interpretation of the requirements of this article would deprive the applicant of rights commonly enjoyed by the owners of other properties in the same district under the terms of this article; (4) The special conditions with respect to which a variance is sought do not result from the action of the applicant; (5) Granting the variance will not confer on the applicant any special privilege that is denied by this article to other land, buildings or structures in this same district; (6) If applicable, there is sufficient water and wastewater capacity and fire service available to serve the applicant's land as developed under the variance without detriment to the other property within the city; and (7) Granting the variance will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship or difficulty so great as to warrant such variance.

(c) Prior to granting a variance in a residential district, the board must find that: (1) A special individual reason makes the strict application of this article impractical; (2) Granting the variance will be in harmony with the general purpose and intent of this article and will not be injurious to adjoining properties or the neighborhood, or be otherwise detrimental to the public welfare; (3) The granting of the variance will not be detrimental to the public health, safety, or welfare or injurious to the property in the area; (4) There are special circumstances or conditions such as topography, natural obstructions, aesthetic or environmental considerations affecting the land involved such that the strict application of the provisions of this article would deprive the applicant of a reasonable use of his land; (5) The granting of the variance will not have the effect of preventing the orderly development of other land in the area in accordance with the provisions of this article; (6) If applicable, there is sufficient water and wastewater capacity and fire service available to serve the applicant's land as developed under the variance without detriment to the other property within the city; and (7) The circumstances or conditions from which relief is sought are not solely of an economic nature.

(d) In granting a variance, the board may prescribe appropriate conditions and safeguards in conformity with this article.

RE: Request for Variance

To the City Council of Rollingwood,

The property owners of ATX Vision, LLC request a variance from the City of Rollingwood's criteria for construction hours based on the following:

1. The building of 2700 Bee Caves Road has been significantly slowed by the COVID-19 pandemic. As an essential medical business, there are a significant amount of people dependent on the completion of this building. A total of five resident doctors, numerous nurses and administrative staff are prepared to occupy the building on December 12, 2020 and conduct surgery and medical care beginning on December 14, 2020. If construction is not allowed to be completed by this time, there will be a significant number of patients that will be without care.
2. In alignment with Sec. 101-247 (f)(1), we are committed to not disturbing the surrounding area during the requested extended hours. No deliveries, outside work or construction trucks will be active during these times. We will only conduct interior activities such as painting, carpet and minor construction activities during this time that will not inconvenience the surrounding public.
3. These activities are critical to the completion of the building and the scheduled credential inspection of the surgery center in December.

Please contact me at 512-731-5840 if you have any questions.

Sincerely,
