

Village of Roscoe

Application for PERMIT FOR PYROTECHNIC DISPLAY

TO: Village of Roscoe
ATTENTION: Fireworks Permitting
10618 Main Street, P.O. Box 283, Roscoe IL 61073

APPLICANT: (Individual, corporation, partnership or entity sponsoring the event.)

Name:	All World Machinery	
Contact Person:	Joe Marchetti	
Address:	One All World Way	Roscoe IL
Phone number:	Cell/Other Number:	[REDACTED]

PROPERTY OWNER: (Owner of property where display/s will be held.)

Name:	All World Machinery/Mitch Koepp	
Address:	One All World Way	Roscoe, IL
Phone Number:	[REDACTED]	Cell/Other Number: Same

LEAD PYROTECHNIC OPERATOR: (Responsible for safety, setup & discharge of display)

Copy of State of Illinois and Federal Explosives Licenses attached.

Attach list of names and addresses of all persons involved in the handling of the pyrotechnic display.

Name:	Joseph Marchetti	
Address:	[REDACTED]	
Phone Number:	[REDACTED]	Cell/Other Number: Same

PYROTECHNIC DISTRIBUTOR: (Person or company distributing fireworks for sale in Illinois)

Name:	Ultimate FX Lasers and Pyrotechnics	
Address:	710 Ridge Drive, Marengo IL	
Phone Number:	847-845-8726	Cell/Other Number: Same

FIRE DEPARTMENT: (Fire Department supervising the pyrotechnic display. Copy of inspection report and/or permit from fire department or fire protection district must be attached to this application.)

Name: _____
Contact Person: _____
Phone Number: _____ Cell/Other Number: _____

DATES: Multi-Event Permit - *Please attach schedule of events.*

Single-Event Permit: *Please fill out information below:*

Date of Display: 06-22-2024
Alternate Date 1: _____
Alternate Date 2: _____

SITE PLAN: Please provide a site plan showing details of the display area, discharge area and fallout area.

FIREWORKS LISTING: Please provide a list of fireworks to be displayed including the number, class, division, and maximum size of fireworks.

CERTIFICATE OF INSURANCE: Please provide as specified in the Fireworks Code.

SIGNATURES:

The parties hereto state that the display will be conducted in strict adherence to the Rules and Regulations of the Village of Roscoe pertaining to pyrotechnic displays, and to State and Federal laws pertaining to the use and handling of fireworks and pyrotechnic displays.

Date: March 7th, 2024

Date: MARCH 8TH 2024

Date: March 7th, 2024

EMERGENCY RESPONSE INFORMATION

UN0336, FIREWORKS, 1.4G

No chemical composition is released or exposed during normal handling, storage and transportation. In the event of a vehicle fire or intense that reaches the cargo area, the fireworks are likely to ignite. They will burn, spreading burning particles over a limited area. A mass explosion is not expected. Smoke and potentially irritating gases will be produced in such a fire. If the fireworks are spilled as the result of an accident but do not ignite, they can be picked up and repackaged with caution. The area should be kept clear of non-essential people while this is being done.

EMERGENCY ACTION

In case of fire, stop traffic, isolate the immediate area, and deny entry. Keep non-essential people away.

Fire in cargo area can be fought with water spray if necessary, although disposal and site clean up will be simplified if material is allowed to burn. Try to prevent other types of fire from reaching the cargo area.

Self-contained breathing apparatus (SCBA) and structural firefighter's protective clothing will provide some limited protection. Firefighters should retreat if fire approaches cargo area, and use unmanned hose holder to direct water spray on fire.

For additional information, call the shipper using the emergency telephone number listed on the shipping papers. If there is no answer, call Chem-Tel's 24-hour number (800) 255-3924.

FIRE

Truck fire (other than cargo area): Flood with water. Tire fires may re-start. If possible, unhook and separate tractor from trailer. Remove vehicle that is not involved in fire from fire area if you can do so without risk. If cargo area is exposed to heat and flames, direct water spray on outside of container to cool it down. Continue spray until well after fire is out.

Cargo fire: Do not move cargo or vehicle if cargo has been exposed to heat.

Withdraw from area if and when fire reaches cargo and let fire burn, if situation allows. If fire must be fought, flood with water spray. Use firefighting team to prevent spread of fire to adjacent structures and materials.

Promptly isolate the scene by removing all persons from the vicinity of the incident. First, move people out of line-of-sight of the scene and away from windows. Obtain more information from appropriate authorities listed on the shipping papers.

SPILL OF CARGO

Shut off ignition sources. There should be no flares, smoking, tools capable of producing sparks, or flames in the vicinity of the spilled material.

Cautiously pick up the spilled devices and place them in cardboard cartons.

FIRST AID

Call emergency medical care.

Use first aid treatment according to the nature of the injury.

EMERGENCY RESPONSE INFORMATION

EXPLOSIVES - DIVISION 1.4

Articles, pyrotechnic, 1.4G, UN0431, Fireworks, 1.4G, UN0336,
Igniters, 1.4G, UN0325, Igniters, 1.4S, UN0454

POTENTIAL HAZARDS

FIRE OR EXPLOSION

- MAY EXPLODE AND THROW FRAGMENTS 500 meters (1/3 MILE) OR MORE IF FIRE REACHES CARGO.

HEALTH

- Fire may produce irritating, corrosive and/or toxic gases.

PUBLIC SAFETY

- CALL Emergency Response Telephone Number on Shipping Paper first. If Shipping Paper not available or no answer, refer to appropriate telephone number listed on the inside back cover.
- CALL CHEM-TEL: 24-HOUR NUMBER (800) 255-3924.
- Isolate spill or leak area immediately for at least 100 meters (330 feet) in all directions.
- Move people out of line of sight of the scene and away from windows.
- Keep unauthorized personnel away.
- Stay upwind.
- Ventilate closed spaces before entering.

PROTECTIVE CLOTHING

- Wear positive pressure self-contained breathing apparatus (SCBA).
- Structural firefighters' protective clothing will only provide limited protection.

EVACUATION

Large Spill

- Consider initial EVACUATION for 250 meters (800 feet) in all directions.

Fire

- If rail car or trailer is involved in a fire, ISOLATE for 500 meters (1/3 mile) in all directions; also initiate evacuation including emergency responders for 500 meters (1/3 mile) in all directions.

EMERGENCY RESPONSE

FIRE

CARGO Fire

- DO NOT fight fire when fire reaches cargo! Cargo may EXPLODE!
- Stop all traffic and clear the area for at least 500 meters (1/3 mile) in all directions and let burn.
- Do not move cargo or vehicle if cargo has been exposed to heat.

TIRE or VEHICLE Fire

- Use plenty of water - FLOOD it! If water is not available, use CO₂, dry chemical or dirt.
- If possible, and WITHOUT RISK, use unmanned hose holders or monitor nozzles from maximum distance to prevent fire from spreading to cargo area.
- Pay special attention to tire fires as re-ignition may occur. Stand by with extinguisher ready.

SPILL OR LEAK

- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).
- All equipment used when handling the product must be grounded.
- Do not touch or walk through spilled material.
- DO NOT OPERATE RADIO TRANSMITTERS WITHIN 100 meters (330 feet) OF ELECTRIC DETONATORS.
- DO NOT CLEAN-UP OR DISPOSE OF, EXCEPT UNDER SUPERVISION OF A SPECIALIST.

FIRST AID

- Move victim to fresh air.
- Call 911 or emergency medical service.
- Give artificial respiration if victim is not breathing.
- Administer oxygen if breathing is difficult.
- Remove and isolate contaminated clothing and shoes.
- In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.
- Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

SUPPLEMENTAL INFORMATION

- Packages bearing the 1.4S label or packages containing material classified as 1.4S are designed or packaged in such a manner that when involved in a fire, may burn vigorously with localized detonations and projection of fragments.
- Effects are usually confined to immediate vicinity of packages.
- If fire threatens cargo area containing packages bearing the 1.4S label or packages containing material classified as 1.4S, consider isolating at least 15 meters (50 feet) in all directions. Fight fire with normal precautions from a reasonable distance.
