Overview & Goals :

Dear Robert Lewis ,

Here at Premier Technologies, we understand that people are the foundation of any great organization. Whether it's their committed employees or loyal customers, supporting staff, customer retention, revenue growth or increases in market share, it all comes down to remaining flexible in a changing corporate landscape. How is that achieved? Through responsive, secure, and advanced IT infrastructure! Making the best investment in your economic expansion – now and for the future!

Premier Technologies focuses on your IT, so you can focus on your business growth! We work with you to guide your technology strategies, helping you align technology with your business and process strategies. We provide strategic, architectural, operational, and implementation planning for ALL your IT needs.

Sincerely,

Chad Shultz

President & CEO of Premier Technologies

Who We Are: Premier Technologies is your technology best friend, advising you on IT solutions with a focus on being approachable, cost-conscious, and proactive. We have been in business for over 25 years, providing deep technical knowledge and consistent, scalable services. Our team of more than 14 IT professionals is based in Beloit, WI, and is solely owned by our president making our only priority you, our clients.

What We Do: We specialize in a wide range of IT services and solutions for small and medium sized businesses, including but not limited to:

- **Managed Services:** Advanced Cybersecurity, Cloud Services, Business Continuity, and Strategic IT Consulting. Our managed services ensure that your IT infrastructure is always up-to-date, secure, and running smoothly.
- **Professional Services:** Onsite review of environment, One-time projects, Replacement of hardware. Our professional services make projects simple by being an all-inclusive solution.
- **Network Security:** Managed Detection and Response, Endpoint Protection, Network Monitoring, Compliance and Risk Management, and Security Awareness Training.
- **Product Procurement:** Tailored solutions to meet your specific needs and budget. Our sales team is well-versed in understanding your company's requirements and providing the best products to meet those needs.

Why Choose Us:

- **24/7 Protection:** Continuous monitoring and rapid response to security incidents to ensure that your business is protected around the clock.
- **Expert Team:** Certified professionals with extensive experience and knowledge in the IT industry dedicated to keeping your business running.

- **Custom Solutions:** Tailored services to meet your unique needs and budget. We understand that every business is different, and we provide solutions that are specifically designed for you.
- **Proven Track Record:** Over 25 years of satisfied clients and an incredible knowledge base. Our long history of success speaks to our ability to deliver high-quality services.

Who We Serve: We cater to organizations with 25 to 150 users across various industries, including manufacturing, government, K-12, non-profits, education, insurance, legal, professional services, hospitality, retail, personal care/clubs, construction, and health. Our diverse client base demonstrates our ability to provide tailored solutions for a wide range of industries.

Our Vision: Premier Technologies provides innovative IT solutions by delivering a consistent, scalable and resilient products and level of service. Our focus on exceptional customer service and our core values have led us to be trusted advisors to our partners, and prepared us for future opportunities to support the community. We employ the most experienced staff that are equipped with continuing education, industry leading tools, and work in an environment that encourages growth, open communication, and a positive work culture.

Our Mission: As a leader in our market, we provide our partners with the latest technologies and solutions that simplify the complexity of IT. We empower you to view technology as a strategic investment that propels your business forward.

Our Core Values:

- **Innovation:** We continuously seek new and better ways to serve our customers and approach the problems they are experiencing.
- **Reliability:** We are consistently performing and delivering on what we've promised.
- **Mastery:** We are consistently showcasing our variety of knowledge and proficiency in IT.
- **Collaboration:** We believe in the power of teamwork and collaboration to achieve all goals.
- **Quality:** We are committed to delivering the highest quality services and solutions to our clients.

Popular Business Solutions:

- **Access Control:** We provide advanced access control systems to ensure the physical security of your premises.
- **Camera Systems:** Our camera systems offer high-quality surveillance to monitor and protect your property.
- **Phone Systems:** We offer state-of-the-art phone systems to enhance your communication capabilities.
- **Wi-Fi Solutions:** Our Wi-Fi solutions provide reliable and fast internet connectivity for your business.
- **Networking:** We design and implement robust networking solutions to support your IT infrastructure.
- **Servers:** We offer a range of server solutions to meet your business needs.
- **Office 365 and Email:** We provide Office 365 and email solutions to enhance your productivity and collaboration.
- **Azure:** Our Azure services offer scalable and flexible cloud solutions for your business.

- **Compliance:** We help you achieve and maintain compliance with industry regulations and standards.

Client Testimonials:

- “Best experience I have had so far with an IT company! The technicians are thorough, timely, professional, and forthcoming with the customer and team if and when they need additional help or clarification.”
- **Stateline Family YMCA**
- “Premier IT was already aware of the situation” - **Avondale Roofing**
- “AMAZING to work with! Always courteous and efficient from start to finish. Very knowledgeable team!”
- **Bartelt Enterprises**
- “Always so helpful and quick to respond.” - **Perfusion Solutions, Inc.**
- “Very knowledgeable. Very good interpersonal skills.” - **Cotta, LLC**

• Phase 1 – SAN Storage Expansion

- Supply and install two (2) 1.8TB enterprise-grade drives in the existing Lenovo SAN.
- Expand the existing storage pool and validate proper RAID functionality.
- Verify storage health and redundancy following installation.
- Allocate additional storage resources to support the UDE environment and future evidence growth.
- Confirm adequate capacity for application databases and evidence retention requirements.

• Phase 2 – UDE Virtual Server Deployment

- Review i-PRO UDE server requirements and migration documentation.
- Verify virtualization host resources and storage availability.
- Create and configure a dedicated UDE virtual machine within the existing Lenovo server environment.
- Configure:
 - 150GB System (C:) Drive
 - 750GB Data Drive for SQL databases and transaction logs
- Install and configure Windows Server prerequisites.
- Configure local administrator permissions and server security settings.

• Phase 3 – Infrastructure Configuration

- Configure networking, DNS, and required communication services.
- Configure storage presentation and permissions.
- Apply operating system updates and security hardening.
- Validate server performance and storage connectivity.
- Verify compliance with vendor-provided UDE prerequisites.
