### Hardscape

5 year installation warranty on brick paver installation and concrete block retaining walls

Many of the brick manufacturers (ie: Unilock, Rochester, etc) have a lifetime warranty on the actual material. Please refer to the manufacturer brochure for any warranties offered on material. Brad's Proscapes does not offer a warranty on the actual brick paving material.

Warranty of installation is void if customer adds improper irrigation or watering material after installation

Example-installing a sprinkler line behind a retaining wall and the water line breaks causing the retaining wall to shift
