

MAPPY HOUR

Wednesday, November 9th | 5:30-7:30 PM | SteamPlant Ballroom

Cash bar and light snacks available

Do you:

- Love Salida?

- Have thoughts about the future of the community?

- Care about addressing housing needs and future opportunities for economic development?

- Like to look at maps?

- Want to learn more about how Salida is working to achieve the community's vision for the future?

Join us for a community conversation!

The City of Salida is developing a Future Land Use Map (FLUM) – a tool to guide the type, intensity, and location of future development in Salida – as a companion to the Comprehensive Plan.

The City is developing a FLUM to:

- Establish a policy foundation for new zoning tools that are currently being considered as part of the ongoing Land Use Code update
- Address emerging thinking and community priorities:
 - Opportunities to support diverse housing options
 - Expansion of mixed-use development in targeted locations
 - More efficient use of existing land and available/planned infrastructure
 - Incremental growth in specific areas of the city
- Engage the community in an important discussion about where and how Salida could and should change in the future

Event hosted by:

CLARION
