The properties to south are within the city limits and are zoned High Density Residential (R-3), Manufactured Housing Residential (R-4) and Commercial (C-1).

### REVIEW STANDARDS FOR MAP AMENDMENTS (Section 16-4-210):

- Consistent with Comprehensive Plan. The proposed amendment shall be consistent with the Comprehensive Plan.
  - The Comprehensive Plan includes the goals that new projects should complement the neighborhood's mass and scale; be focused within the Municipal Services Area (MSA) and be developed at maximum densities to make the best use of available infrastructure.

- The zoning of R-3 would be consistent with the zoning found in the adjacent River Ridge development and would continue the regular pattern of zone district application.
2. Consistency with Purpose of Zone District. The proposed amendment shall be consistent with the purpose of the zone district to which the property is to be designated.
- Per the land use code, the purpose of the High-Density Residential (R-3) zone district is to provide for relatively high density duplex and multi-family residential areas, including primarily triplex, townhouse and apartment uses. Complementary land uses may also include such supporting land uses as parks, schools, churches, home occupations or day care, amongst other uses.
  - The 601 Scott Street property has a single-family double wide mobile home and a detached garage. The owner has indicated that in the future she is planning to build additional residential units on the .24 acre parcel. Currently, with R-3 zoning this parcel is allowed 4 units of density.
  - The 745 Scott Street property has a single-family dwelling and the owner has stated that she has no development plans at this time. Currently, with R-3 zoning this .24 acre parcel is allowed 4 units of density.
  - Staff supports the request to zone the subject property as High-Density Residential (R-3).
3. Compatibility with Surrounding Zone Districts and Uses. The development permitted by the proposed amendment shall be compatible with surrounding zone districts, land uses and neighborhood character.
- The zoning classification of High Density (R-3) is consistent and compatible with the zoning of the adjoining River Ridge Subdivision.
4. Changed Conditions or Errors. The applicant shall demonstrate that conditions affecting the subject parcel or the surrounding neighborhood have changed, or that due to incorrect assumptions or conclusions about the property, one (1) or more errors in the boundaries shown on the Official Zoning Map have occurred.

## CITY COUNCIL ACTION FORM

- The proposed zoning is occurring because of the requirement to zone the property when annexed into the City in accordance with Section 16-4-50 of the Land Use and Development Code.
