Phone: 719-530-2626 Fax: 719-539-5271 Email: planning@cityofsalida.com

1. TYPE OF APPLICATION (Check-off as appropriate)

A. Type

1. □ Minor Activity - means or includes:

- a. The replacement of surface materials such as roofing or siding or an exterior architectural feature with materials and design substantially similar to the existing materials or design;
- b. The installation, removal or replacement of a fence, awning, roofing material or dumpster enclosure;
- c. The reuse of an existing window or door opening which has been covered or filled through installation of a replica of a historic door or glazing;
- d. Those activities deemed to not detrimentally impact or influence in any substantial way the historic integrity or appearance of a landmark building, structure, site or designated historic district, or as deemed to be minor upon petition to and determination by the Administrator or his or her designee.

2. Major Activity - means and includes:

- a. An activity not defined or qualifying as an insubstantial or minor activity, including, but not limited to, reconstruction, rehabilitation, remodeling, renovation, relocation or demolition;
- (b) Alterations additions or other work performed on a building, structure or site that result in the increase or decrease of site coverage, floor area or exterior wall or roof surface;
- The installation, alteration or removal of a window or door opening;
- d. The replacement or repair of surface materials such as roofing or siding or an exterior architectural feature with materials or design not substantially similar to the existing materials or design;
- e. The cleaning of an exterior surface of a contributing or landmark building or structure by sandblasting, highpressure spraying or other chemical or mechanical means;
- f. Application of sealant, paint, stucco, texture or other material that would conceal, alter or damage the exterior of any contributing or landmark building with an existing unfinished or unpainted brick, masonry or other unfinished siding or structural element;
- g. Those activities deemed to potentially impact or influence in any substantial way the historic integrity or appearance of a landmark building, structure, site or designated historic district, or as deemed to be major upon petition to and determination by the Administrator or his or her designee.

2. PROCEDURE (City Code Section 16-12-80)

A. Development Process

- 1. Pre-Application Conference. Optional.
- 2. Submit Application.
- 3. Staff Review. Determination of Minor or Major Activity.
 - a) Minor Activity. Administrative Review.
 - b) Major Activity. Applicant Notice and Administrative review with advice from HPC.

		STAFF USE ONLY

Code:	Project Name:	File Name:	
Fee:	Receipt #:	Check #:	

3. APPLICATION	ON CONTENTS (City Code Section 16-12-80(b)(2))
100	2 copies of all materials are required for major applications, 2 for minor: Development Application.
current s	phs. All applications shall be accompanied by photographs reasonably and accurately depicting the status of the building, structure or site, or that portion thereof, subject to the application. Include aphs showing all sides of the structure, particularly the front and any side affected by the proposed and detailed photographs of the features affected by the project.
☐ 3) Drawing 17". Ske	Format. Drawings shall be large enough so that all information is legible but no smaller than 11" x etch drawings are acceptable if they provide accurate information and are reasonable drawn to scale.
☐ 4) Dimension	oned Site Plan. Site plan showing street locations, existing structure and proposed new elements or es.
□ 5) Dimensio	oned Floor Plan(s). Floor plans showing existing structures and proposed new elements or structures.
☐ 6) Dimensi	oned Roof Plan. Roof plan showing proposed new roof elements in context of the existing roof.
☐ 7) Dimens	ioned Exterior Elevations. Exterior elevations showing appearance of proposed project with all s and indicating finishes.
,	g Sections and Construction Details. Sections and details as required adequately explaining and g the project. Note all materials and finishes.
/	eation of Materials. Manufacturer's product literature and material samples. Product literature is for replacement windows.
	proposing to replace existing historic materials or features with replicas rather than repair or restore, s must be provided for both restoration and replication.
justificat	Replacement. If proposing to replace historic windows (aside from wooden replica sash replacement) tion shall be provided as outlined in National Park Service Preservation Brief #9. Submittal must written assessment of condition of existing windows.
☐ 12) New Co	onstruction shall include the following information:
	Block Site Plan. A site plan or aerial photograph showing relationship of proposed structure to existing tructures.
□ b. V	Written Statement. A written statement of the design philosophy and building program.
	Massing Model. A massing model illustrating the relationship between the new structure(s) and existing building(s) on the project site and adjacent lots.
□ d. I	Photographs. Photographs of the surrounding structures including both block faces and side streets.
13) Demoli	ition or relocation of a building, structure or site shall include the following:
i	A detailed description of the reasons supporting or justifying the proposed demolition or relocation, including a delineation and explanation of all economic data where economic hardship or other economic cause is given as a reason for the proposed demolition or relocation.
	A detailed development or redevelopment plan for the demolition and/or receiving relocation site and a schedule for completion of the work.
	Elevations, building sections, construction details, specifications and massing model of proposed replacement structure similar to those required for new construction.
a	For landmark or contributing structures the applicant must submit a report prepared by an architect, appraiser, engineer or other qualified person experienced in the rehabilitation, renovation and/or restoration of historic buildings, structures or sites addressing:
[i) The structural soundness of the building, structure or site and its suitability for rehabilitation, renovation, restoration or relocation.
С	Jii) The economic and structural/engineering feasibility of the rehabilitation, renovation and/or restoration of the building, structure or site at its current location.
	iii) The economic and structural/engineering feasibility of relocating the building, structure or site.
	tion Fee \$50.00 for a Minor Activity \$100 for a Major Activity Cash or check made out to City of Salida.

CERTIFICATE OF APPROVAL APPLICATION

124 E 2nd Street Addition Thordis Niela Simonsen, Owner/applicant thordis@museumofauthenticity.org 303.585.1783

July 2024

A. Review of previous improvements to 124 E 2nd Street under the current ownership

MUSEUM BUILDING

- 1. Replaced 2nd front entry door with window display case
- 2. Replaced plywood knee-walls on front porch with custom designed/built railings
- 3. Replaced brick veneer on entire front of building
- Replaced three front/south windows and matched the scale of the front two western windows to the older window beside the front door
- 5. Replaced back/north set of 3 double-hung windows with Sierra Pacific double-hung thermopane windows
- 6. Rebuilt frame of kitchenette window

ADJUNCT BUILDING (Gatehouse)

- 7. Added ±150 sq ft to front/south side of with roof raised ±1 foot
- 8. Infilled north overhead garage door opening with brick and 4 glass blocks
- 9. Installed ADA compliant lavatory in existing adjunct building

PLOT

- 1. Replaced white plastic perimeter fencing with custom designed wood-and-steel fencing
- 2. Removed ubiquitous asphalt pavement
- 3. Replaced and buried utilities [gas, electricity, water]
- Installed ADA compliant ramp, 7-foot-wide concrete terrace on south side of Gatehouse, and 17-foot-wide by 24-foot-deep concrete terrace off back/north of Museum building.
- 5. Installed north custom designed/built entry gate and custom designed/built ADA ramp railings to match railings on front porch
- Trucked out riverbed, trucked in amended topsoil, and installed ±650 sq ft gardens planted with a pencil Juniper and Hawthorne tree and primarily draught-tolerant bedding plants

B. A written statement of the design philosophy and building program for the proposed addition to the MUSEUM building at 124 E 2nd Street, Salida.

Considerations

- The Museum of Authenticity—an elegant but intimate museum of art & culture with exhibits, shop, and gardens—draws visitors from the local community and abroad.
- 2. We are committed to historic preservation.
- We are committed to the visual integrity of improvements to the property with particular emphasis on unification through repetition of building materials, architectural design elements, and repetition of color.
- 4. We take the human need for beauty and relationship to nature to heart.
- We believe in quality workmanship and materials.
- 6. We appreciate the importance of ADA accessibility.
- 7. We believe in and practice energy conservation and recycling.
- 8 Security, light, and wall space, as well as "curb appeal," materials, and workmanship are major considerations for a Museum of art and culture.

Proposal

Because the demands for exhibit space and shop space precluded the possibility of including adequate storage space within the confines of the Museum building, we have been fulfilling that need off-site. We wish to create

storage space on site by building a 363 GSF addition onto the back/north side of the existing Museum building. The north façade of the proposed new construction will mirror the front/south façade of the Gatehouse, which it will face: parapet, matching brick color and pattern, matching color of windows and exterior door, and matching exterior light fixture. (Note: the existing triple double-hung window unit and exterior light fixture both meet today's codes and will be re-used.)

requirements

- Demolition of the existing back/north wall of the Museum building between the east edge of the existing double-hung windows and the west edge of the existing back door, including the "post" between the window unit and door.
- 2. Installation of a beam to support the wall above the new wider opening
- 3. Reinstallation of existing triple double-hung window unit and installation of a new Sierra pacific 36" undivided glass back/north door finished to match the color of the windows. [Note: the door of the new construction matches style and color of facing door of Gatehouse.]
- 4. Stucco east and west walls except for brick wrap-around to match front of Museum building and paint neutral light gray.
- 5. Brick back/north wall to match brick wall of Gatehouse it faces.
- 6. Reinstallation of existing exterior light fixture on wall between window bank and door. [Note: fixture matches those on front/south facades of Museum building and Gatehouse exterior fixtures and is code approved.]
- 7. Creation of fully compliant ADA access running from a landing at the top/south end of the existing north/south ramp to a 7'-wide east/west ramp across the back/north side of the new construction to a landing at the back/north door of the new construction.

Colors

- 1. Brick will match as closely as possible the Summit Brick Bonfire tumbled smooth modular brick used in the construction of the addition to the Gatehouse and the front/south façade of the Museum building.
- 2. Existing Sierra Pacific triple double-hung window unit that will be reused and new Sierra Pacific door will match the Sierra Pacific windows and door of the Gatehouse with respect to design and color (#26 clay).
- 3. Brick molding, windowsills, and kitchenette window will be painted to match the baked enamel of the windows and doors (Benjamin Moore low luster G-9 1599).
- All stucco including east and west walls of the new construction and the west wall and remaining north wall of the Museum will be painted a neutral light gray (Benjamin Moore low luster Balboa Mist #1549).

Summary

The new addition will enhance the functioning of the Museum of Authenticity by providing adequate on-site space for museum storage. Sand the new construction will enhance the beauty of the site by setting off the museum gardens and decorative metalwork.

Thank you for your time and attention.

WARRANTY DEED

THIS DEED is dated March 20, 2013, and is made between Joel K. Husen and Aaron Armstrong (whether one, or more than one), the "Grantor," of the County of CHAFFEE and State of CO, and Thordis Niela Simonsen (whether one, or more than one), the "Grantee," whose legal address is P.O. Box 460681, Denver, CO 80246 of the City and County of DENVER and State of CO.

State	Docur	ne	nta	ry Fee
Date.	MAR	2	0	2013
\$	23	. 9	0	

WITNESS, that the Grantor, for and in consideration of the sum of TWO HUNDRED THIRTY NINE THOUSAND AND 00/100 DOLLARS, (\$239,000.00), the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantee and the Grantee's heir, successors and assigns forever, all the real property, together with any improvements thereon, located in the County of CHAFFEE and State of Colorado, described as follows:

Lot No. 20 Block No. 22 in the Town (now City) of Salida Chaffee County, Colorado

also known by street address as: **124 East Second Street, Salida, CO 81201** and assessor's schedule or parcel number: 368132422255

TOGETHER with all and singular the hereditaments and appurtenances thereunto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantee and the Grantee's heirs, successors and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs, successors and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs, successors and assigns: that at the time of the ensealing and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: none; or the following matters: general taxes for the year 2013 and subsequent years, and those items accepted by Grantee pursuant to the Contract to Buy and Sell Real Estate between Grantor and Grantee with respect to the premises above described, specifically including all matters excluded or excepted pursuant to the Title Commitment issued by First American Title Insurance Company as Commitment Number 1306929.

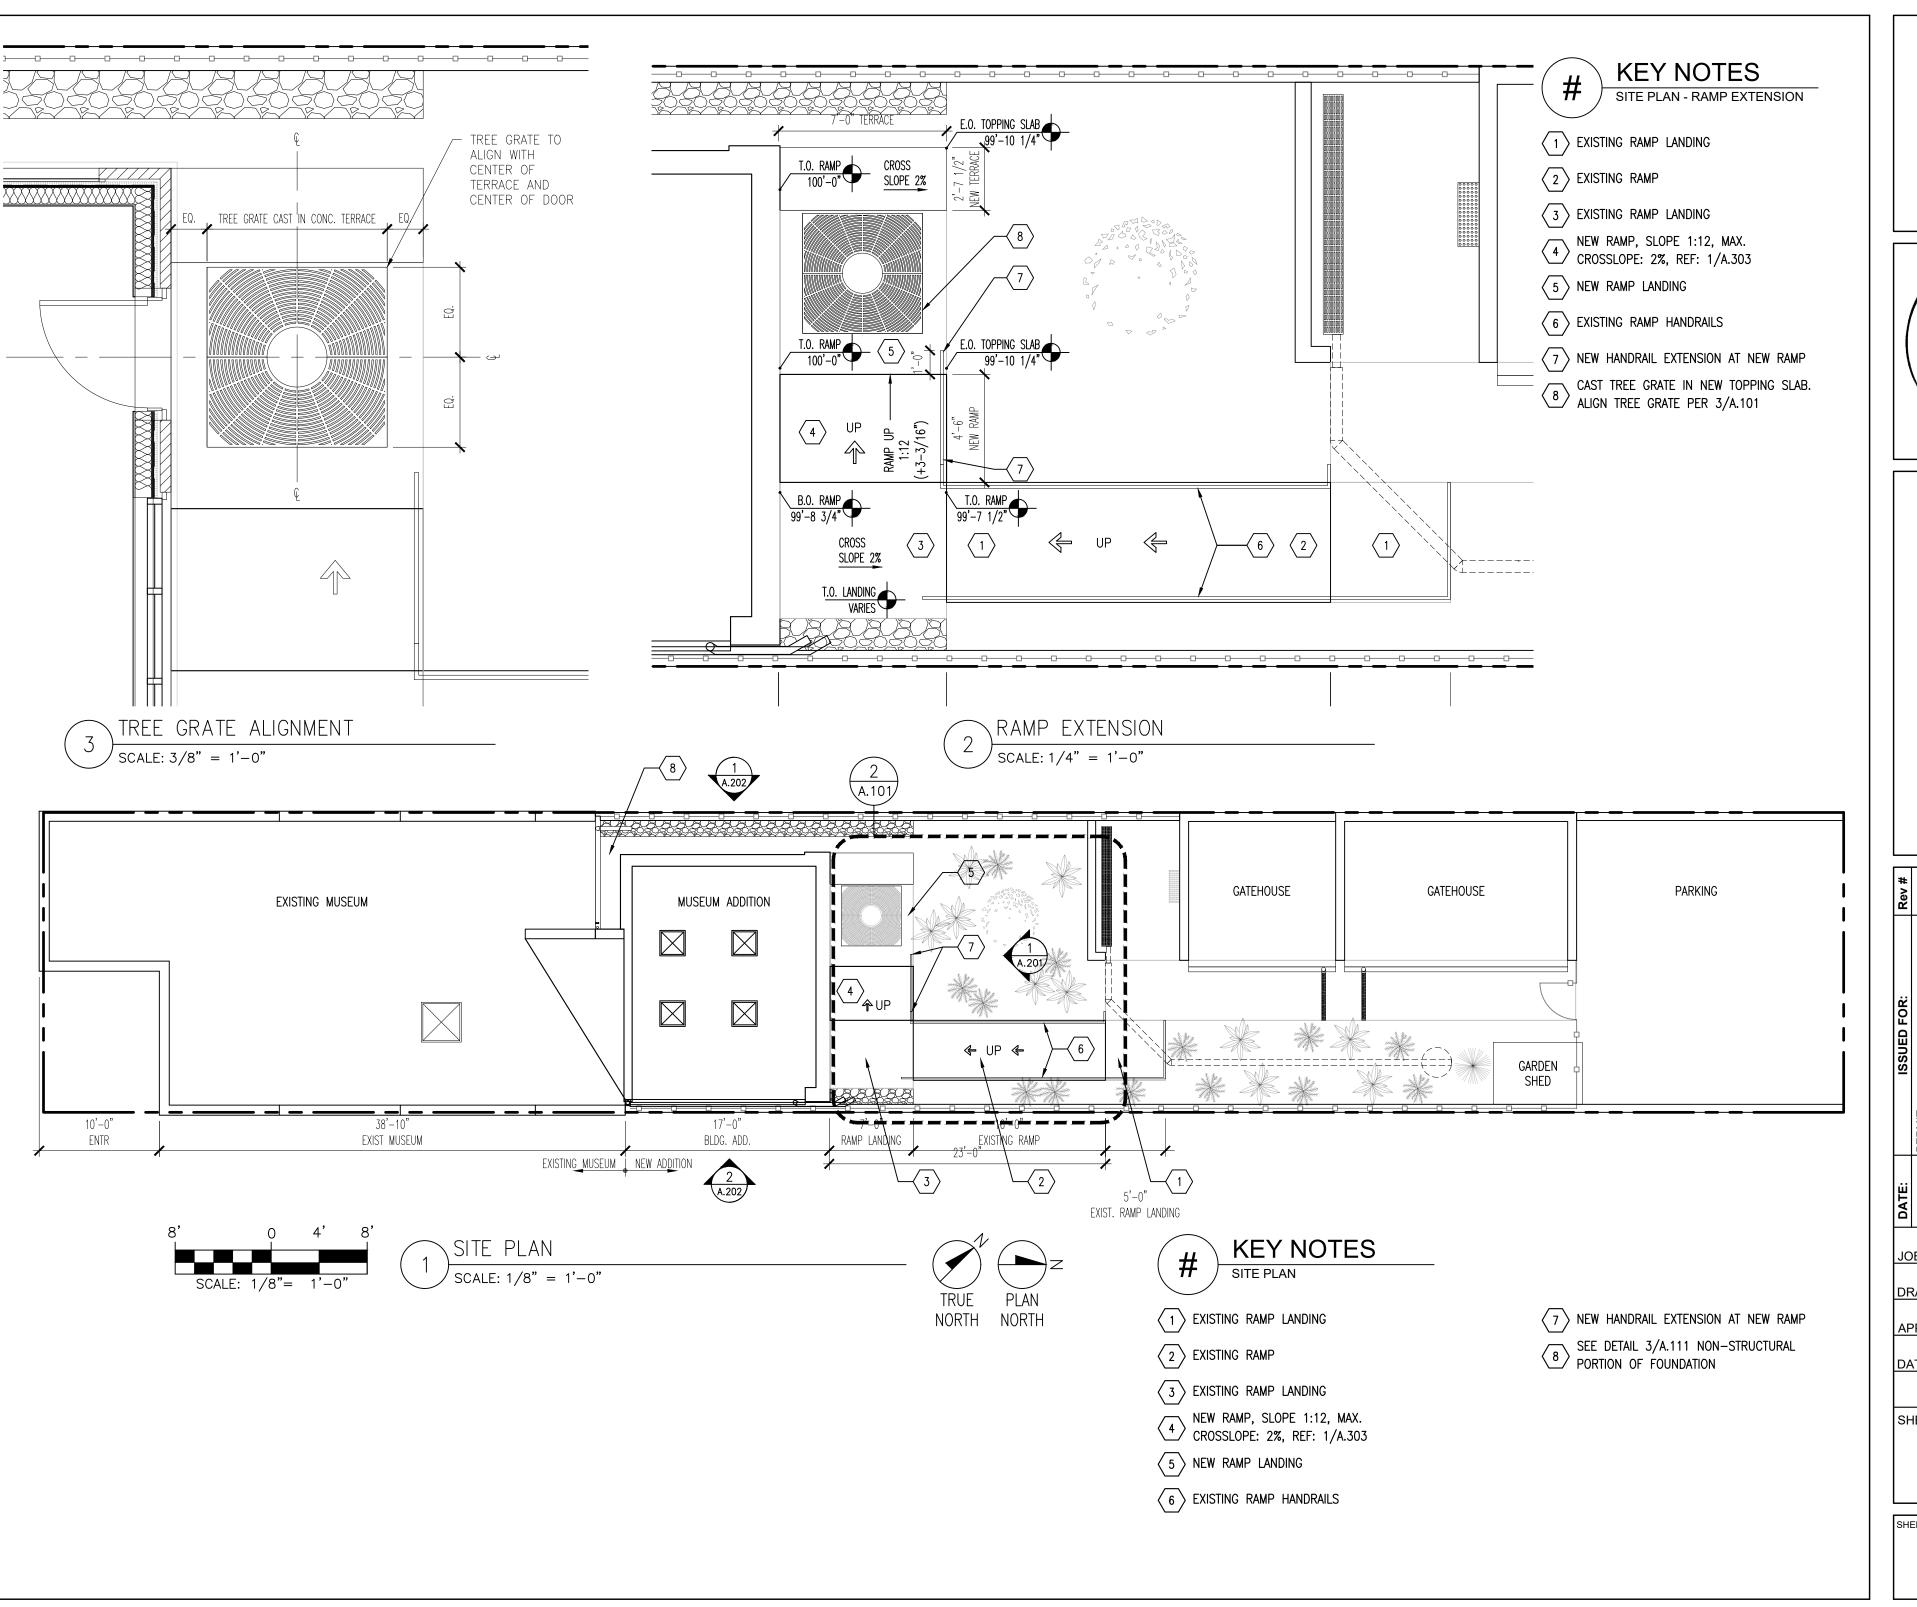

And the Grantor shall and will WARRANT AND FOREVER DEFEND the above described premises, but not any adjoining vacated street or alley, if any, in the quiet and peaceable possession of the Grantee and the heirs, successors and assigns of the Grantee, against all and every person or persons claiming the whole or any part thereof.

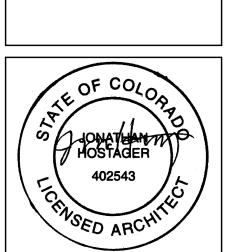

IN WITNESS WHEREOF, the Grantor		2

27. Builder/Contractor: Unknown

Source of Information:

28. Original Owner: Unknown

Source of Information:

29. Construction History (include description and dates of major additions, alterations, or demolitions):

The 1888 Sanborn map indicates that this parcel was vacant. By 1890 this building is shown as a one-story L-shaped dwelling with small off-center porch in the angle of the L. A small rear projection was added between 1898 and 1904.

30. Original Location: Yes Date of Moves

V. HISTORICAL ASSOCIATIONS

31. Original Use(s): Domestic/Single Dwelling

32. Intermediate Use(s)

33. Current Use(s): Commerce and Trade/Business

34. Site Type(s): Dwelling, Office

35. Historical Background:

This building was erected between 1888 and 1890, according to Sanborn fire insurance maps. The 1890 and 1893 maps identify this building as a dwelling. In 1893 it is shown as a doctor's office. The 1898 through 1914 maps show this as a dwelling. An office was shown in the building on the 1929 and 1945 Sanborn maps.

The 1903-04 through 1922 city directories list the office and residence of Dr. Jessine M. Hartwell at this address. Manuscript returns for the 1920 Census revealed that Dr. Hartwell was then sixty-six years old and a native of Massachusetts. She listed her occupation as homeopathic physician.

In 1961, an engineering and surveying firm was housed in the building: Robert Harrison and Associates.

36. Sources of Information:

Chaffee County Assessor records; Salida City Directories; Sanborn Insurance Maps; US Census, Census of Population, 1920, Chaffee County, Colorado, enumeration district 10.

VI. SIGNIFICANCE

37. Local Landmark Designation: No Date of Designation:

Designating Authority:

38. Applicable National Register Criteria:

Resource Number: 5CF406.92

Architectural Inventory Form Page 3 of 3 **Temporary Resource Number:** 99

- A. Associated with events that have made a significant contribution to the broad pattern of our history;
- B. Associated with the lives of persons significant in our past;
- C. Embodies the distinctive characteristics of a type, period, or method of construction, or represents the work of a master, or that possesses high artistic values, or represents a significant and distinguishable entity whose components may lack individual distinction; or
- Has yielded, or may be likely to yield, information important to history or prehistory.

Qualifies under Criteria Considerations A through G (See Manual).

- Does not meet any of the above National Register criteria. Х
- 39. Area(s) of Significance:
- 40. Period of Significance:
- 41. Level of Significance:
- 42. Statement of Significance:

This building is associated with the construction of residential housing near downtown Salida in the late nineteenth century. Alterations to the building have diminished its historic physical integrity relating to its history as a dwelling, but it is representative of postwar commercial architecture utilizing University of Colorado style sandstone.

43. Assessment of Historic Physical Integrity Related to Significance:

This building retains few of its architectural features from the time of its original construction, although its present appearance is representative of a popular design of the post-World War II period.

VII. NATIONAL REGISTER ELIGIBILITY ASSESSMENT

- 44. National Register Field Eligibility Assessment: Not eligible
- 45. Is there National Register district potential? Discuss. N/A

This building is located within an existing National Register district, the Salida Downtown Historic District.

If there is NRHP district potential, indicate contributing status: N/A

46. If the building is in an existing NRHP district, indicate contributing status: Noncontributing

Thordis Simonsen PO Box 460681 Denver, CO 80246

Dear Ms. Simonsen:

On March 14, 2019, the Salida Historic Preservation Commission reviewed your Major Certificate of Approval application to change the front façade including replacing brick; removing a door; adding a display window and reducing the size of two windows at 124 E. 2nd Street. At the meeting an additional request was made to fill-in the bathroom window opening adjacent to the northwest property line.

Your application was approved subject to the following conditions:

- 1. That the frames of the windows on the front façade be non-reflective and harmonize with the exterior materials. The Commission recommended using a matte finish as shown by the applicant.
- 2. The applicant is required to install corbelling along the top of the new brick wall.
- 3. The display case window shall match the size of the new window openings and be similar to the display case at the A.T. Henry Building as shown by the applicant.
- 4. The Commission approved the additional request to infill the small window on the west wall.

Thank you for working with the Commission and if you have any questions, feel free to contact me.

Sincerely,

Glen Van Nimwegen, AICP

Community Development Director

Thordis Simonsen PO Box 460681 Denver, CO 80246

Re: Request for a Minor Certificate of Approval, 124 East Second Street

Dear Ms. Simonsen,

Your request for a Minor Certificate of Approval for the removal of the air conditioner unit and enclosure of the 24"x18" opening on the west wall has been approved.

The approval is based on the submitted application, materials and drawings. You are advised that unmet code provisions, or code provisions that are not specifically listed as conditions of approval, do not, in any way, create a waiver or other relaxation of the lawful requirements of the City of Salida Municipal Code or state law.

If you have any questions, feel free to contact me.

Sincerely.

Planner

RE: Request for an exception to fence height limitations 124 E. Second Street

Dear Sarah,

As you know Section 16-8-110(b)(1) of the Salida Municipal Code allows for the Administrator to allow fences of a height in excess of six (6) feet along the side and rear property lines, if a unique security purpose is demonstrated.

Based on the letter and submitted construction plans for the 124 E. Second Street project, we have found that a unique security purpose does exist at Niela Simonsen's property. For this reason you are permitted to construct the fence as submitted in the construction plans. The fence is not to exceed the proposed height of six (6) feet and eight (8) inches at any point.

This height allowance is granted for the side (east and west) property lines of 124 E. Second Street. If any fence is constructed between the face of the building and the front property line, it shall not exceed four (4) feet.

Please let me know if you have any questions. I hope that the additional height will help to screen Ms. Simonsen's property from the adjacent parking lots surrounding the property.

Sincerely,

Dara MacDonald

City Administrator

Re: Request for a Major Certificate of Approval.

Dear Ms. Juchem,

On August 28, 2014, the Salida Historic Preservation Commission reviewed your application for a Major Certificate of Approval to replace the white vinyl fence and build an addition onto the accessory structure in the rear of the property at 124 E. Second Street. Commission approved the application as submitted with the following condition:

1. That the windows on the east wall of the new addition be vertical.

The approval is based on the submitted text and drawings reviewed by the Historic Preservation Commission. You are advised that unmet code provisions, or code provisions that are not specifically listed as conditions of approval, do not, in any way, create a waiver or other relaxation of the lawful requirements of the City of Salida Municipal Code or state law. Please be advised that you must still obtain a building permit prior to commencing the approved alterations.

Thanks for working with the Commission and if you have any questions, feel free to contact me.

Sincerely,

Kristi Jeffers

Dianner

STAFF REPORT

MEETING DATE:

August 28, 2014

AGENDA ITEM TITLE:

Simonsen, Major Certificate of Approval – 124 E. 2nd Street

AGENDA SECTION:

Public Hearing

REQUEST: The request is to receive a Certificate of Approval to replace the white vinyl fence and build an addition onto the accessory structure in the rear of the property at 124 E. Second Street. The historic name of the property is Dr. Jessine M Hartwell Residence.

APPLICANT:

The applicant is Niela Simonsen, PO Box 460681, Denver, CO 80246.

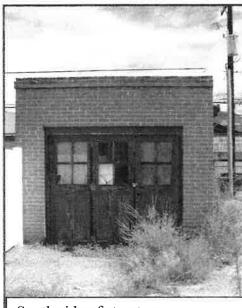

LOCATION:

The property is located at Lot 20, Block 22, City of Salida, Chaffee County, Colorado. The property is also known as 124 E. 2nd Street.

PROCESS:

A major certificate of approval (CA) shall be reviewed by the Historic Preservation Commission and ruled upon by the Administrator or his or her designee at a regular or special meeting to be conducted within twenty (20) days from the date the application was determined complete.

Written notice of the date, time and location of the meeting shall be mailed by regular mail or personally delivered to the applicant not less than five (5) days prior to the meeting. The unexcused absence of the applicant from the meeting shall cause the Administrator or his or her designee to deny the application or, at the Administrator or his or her designee's option, continue the matter to a later meeting date of its choosing.

South side of structure

OBSERVATIONS:

- 1. The subject property is located within the Salida Downtown Historic District and is located within the Central Business (C-2) District.
- 2. The applicant would like to build an addition on the south side of the accessory structure in the rear of the property. The purpose of the addition and the remodel of the accessory structure is to use it as a studio and construct the required ADA facilities for the property. The accessory structure is generally only visible from the alley and neighboring properties.

- 3. The building is considered a noncontributing building to the downtown historic district.
 - According to the Architectural Inventory for this property, "This building is associated with the construction of residential housing near downtown Salida in the late nineteenth century. Alterations to the building have diminished its historic physical integrity relating to its history as a dwelling, but it is representative of postwar commercial architecture utilizing University of Colorado style sandstone."
- 4. The applicant has included a site plan describing the proposed addition to the accessory structure. She would like to change out the wooden half-lite door with a new clad/wood door with side panels, create a new door opening on the southeast wall, remove existing window on southeast wall and replace it with a clad/wood window and on the rear of the structure remove the wooden garage door and infill it with brick and four (4) glass blocks.

North side of structure

5. The request is to also remove the white vinyl fence and replace it with a metal and wood fence.

REVIEW STANDARDS:

- 1. Conformance with Certificate of Appropriateness Review Standards for a noncontributing building (Section 16-12- 90(c)) using the Design Guidelines in the review:
 - A. Enhance District. Whether and/or to what extent the proposed work will enhance and advance the purposes and intent underlying the establishment of the district.
 - The addition would enhance the existing accessory structure and is almost out of public view because the improvements are in the rear of the property.
 - B. Overall Character. New structures and additions to, or the exterior repair or alteration of, existing nonlandmark and noncontributing structures shall be compatible with the historic architectural character, scale, shapes, sizes, heights, facades and materials predominant in the district to the maximum extent feasible.
 - According to the Downtown Design Guidelines, Part 4 Additions and New Buildings, Section B Materials: "Building materials of new structures and additions to existing structures should contribute to the visual continuity of the district. They should appear similar to those seen traditionally to establish a sense of visual continuity."
 - The proposed materials for the addition will be brick which is what is predominately found in the district and the proposed windows will be clad/wood. The one concern that we have with the windows on the addition of the east

elevation is they do not have vertical emphasis like the existing window on that wall that will be replaced with a clad/wood window.

- C. Specific Compatibility. New structures and additions to, or the exterior repair or alteration of, existing nonlandmark and noncontributing structures shall specifically harmonize with neighboring landmark and/or contributing structures or sites with regard to height, scale, shape, size, façade, materials, setback, landscaping and exterior architectural features to the maximum extent feasible.
 - The applicant is proposing to build the addition onto the south side of the structure using brick, which is compatible with the surrounding contributing structures.
 - The proposed windows on the addition do not have the same verticality as the
 existing window. In the district a new building or addition should maintain the
 basic window proportions and placement seen traditionally in the area. Windows
 with vertical emphasis are encouraged.
 - The proposed metal and wood fence will be an improvement over the existing white vinyl fence that currently exists.
- D. Work Necessary. Whether the proposed work is required or necessary to comply with a building, fire or other health/safety code.
 - The applicant is required to provide ADA facilities for her proposed business.
 - The proposed work will comply with all existing building, fire and other health/safety codes; however, it is not necessary that this work be performed in order to comply with those codes.

RECOMMENDED FINDINGS:

Based upon the observations and review standards outlined above, staff recommends the following:

Approve the Major Certificate of Approval application to replace the white vinyl fence and build an addition onto the accessory structure at 124 E 2nd Street with one condition:

1. That the windows on the east wall of the new addition be vertical.

RECOMMENDED ACTION:

That the recommended findings be made and the recommended action be taken.

Application

Site plan

Architectural Inventory Form for 124 E. 2nd Street

CERTIFICATE OF APPROPRIATENESS

HISTORIC PRESERVATION COMMISSION FOR THE CITY OF SALIDA, COLORADO

Margaret Armstrong, your request for a Major Certificate of Appropriateness for the property at 124 E. Second Street for removal of an addition and sandstone siding on the front of the structure, exposure of a historic external wall and substantial return of the front façade to the original façade as depicted in a 1937 photograph has been approved. The Historic Preservation Commission (HPC) has found your application to be in compliance with the criteria listed in Chapter 16, Article 18 of the Salida Municipal Code and the Downtown Salida Design Guidelines.

This certificate is issued on the express condition that construction shall conform in all respects to the statements certified in the application for such permit, and that all work shall be done in accordance with the ordinances of the City of Salida. They approval allows for the addition of a porch roof as depicted in the plans, although the applicant is not required to install that feature.

The applicant is advised that this approval is valid for one (1) year. If work has not begun within one year, this approval will expire.

The applicant shall notify the City Planner in advance of any change in exterior materials and/or design and shall not proceed with the work until approved by the City.

Earle Kittleman, Historic Preservation Commission

Dara MacDonald, City Planner

THIS IS NOT A BUILDING PERMIT IT IS YOUR RESPONSIBILITY TO OBTAIN A BUILDING PERMIT BEFORE PROCEEDING WITH CONSTRUCTION

Certificate No. 02-2006 Date May 1, 2006

November 3, 2006

Arden Trewartha 124 E. 2nd Street Salida, CO 81201

RE: Family and Youth Initiatives sign permit application

Dear Ms. Trewartha,

Your sign permit application has been approved. The approval is for one (1) non-illuminated projecting sign with an area of four (4) square feet to be mounted such that the sign is at least eight (8) feet above grade and not more than four feet six inches (4'6") from the building wall, and one (1) wall mounted sign of not more than 12.5 feet (12.5) square feet.

Based on the 25 feet linear frontage of your building, you are allowed 16.5 square feet of sign area. In conjunction with your current sign application of 16.5 square feet, you have no remaining sign space.

Please let me know if you have additional questions.

Sincerely,

Dara MacDonald City Planner

STAFF REPORT

MEETING DATE: April 27, 2006

AGENDA ITEM TITLE: 124 E. 2nd Street-Major Certificate of Appropriateness Application

AGENDA SECTION: Public Hearing

REQUEST: The request is to receive a Certificate of Appropriateness to remove an addition and sandstone siding on the front of the structure, expose an historic external wall and substantially return the front façade of the structure to the original façade as depicted in a 1937 photograph.

APPLICANT:

The applicant is Margaret Armstrong, 948 'D' Street, Salida, CO 81201.

LOCATION:

The property is located at Lot 20, Block 22, City of Salida, Chaffee County, Colorado. The property is also known as 124 E. 2nd Street.

PROCESS:

A major certificate of appropriateness (CA) shall be reviewed and ruled upon by the Historic Preservation Commission at a regular or special meeting to be conducted within thirty-one days from the date the application was determined complete, or within a longer time period as necessary to reasonably accommodate the application on an HPC agenda.

The Commission shall approve, approve with conditions, or deny the application, or remand it back to the applicant with instructions for modification or additional information or action.

OBSERVATIONS:

- 1. The subject property is located within the historic district and is located within the Central Business (C-2) District.
- 2. The building is considered a <u>noncontributing</u> building to the downtown historic district. According to the Architectural Inventory for this property, "This building is associated with the construction of residential housing near downtown Salida in the late nineteenth century. Alterations to the building have diminished its historic physical integrity relating to its history as a dwelling, but it is representative of postwar commercial architecture utilizing University of Colorado style sandstone."
- 3. The applicant is interested in removing the sandstone on the front of the building and removing the addition that has been added on the eastern portion of that façade. The

removal of the addition would expose the original exterior wall that still exists within the structure. The applicant has reclaimed the original brick wall that became an interior wall with the addition and would install a new brick front on the existing exterior wall using reclaimed brick. The applicant is further proposing to reproduce the original brick parapet. A new window would be installed in the existing opening that has been located in the wall and half-light doors with transoms would be located in their historic locations. A slab porch would be created with a flat roof similar to that seen in the historic photograph.

4. The Secretary of the Interior's Standards for restoration call for the replacement of missing features that can be substantiated by documentary and physical evidence. In this case the applicant has photographic evidence as well as physical evidence in the remaining exterior wall that has been preserved within the building.

REVIEW STANDARDS:

- 1. Conformance with Certificate of Appropriateness Review Standards for a noncontributing building (Section 16-18-80(b)) using the draft Design Guidelines in the review:
 - A. Enhance District. Whether and/or to what extent the proposed work will enhance and advance the purposes and intent underlying the establishment of the district.
 - * In its current configuration this property is not of the time period that it can be contributing to the national register district. However, restoration of the façade of the building can be made that would contribute to the overall integrity and vitality of the downtown. The proposal is to substantially return the façade to the condition shown in a 1937 photograph of the property through a combination of restoration and replacement of historic features.
 - B. Overall Character. New structures and additions to, or the exterior repair or alteration of, existing nonlandmark and noncontributing structures shall be compatible with the historic architectural character, scale, shapes, sizes, heights, facades and materials predominant in the district to the maximum extent feasible.
 - * The proposed work would return the façade to the original dimensions and materials which is compatible with the historic character, scale, shapes, sizes, heights, facades and materials predominant in the district.
 - C. Specific Compatibility. New structures and additions to, or the exterior repair or alteration of, existing nonlandmark and noncontributing structures shall specifically harmonize with neighboring landmark and/or contributing structures or sites with regard to height, scale, shape, size, façade, materials, setback, landscaping and exterior architectural features to the maximum extent feasible.
 - * There are no new structures or additions proposed wit this project. The exterior repair and alteration will harmonize with neighboring properties.

- D. Work Necessary. Whether the proposed work is required or necessary to comply with a building, fire or other health/safety code.
 - * The proposed exterior work is not necessary to comply with any adopted code.

RECOMMENDED FINDINGS:

1. That the application is in compliance with the review standards for noncontributing structures in the historic district because the changes will be compatible with the historic district and will enhance the overall district.

RECOMMENDED ACTION:

Based upon the observations, review standards, and findings outlined above, staff recommends the following:

That the Commission recommend approval for a Certificate of Appropriateness to remove an addition and sandstone siding on the front of the structure, expose an historic external wall and substantially return the front façade of the structure to the original façade as depicted in a 1937 photograph.

RECOMMENDED MOTION:

That the recommended findings be made and the recommended action be taken.

Attachment: Application

Architectural Inventory Form for 124 E. 2nd Street

Proposal For 124 E. 2nd. St.

Remove existing sandstone façade on south side of building. Remove the roof over the 12×10 southeast section of the building. Remove approx. 22 ft. of cinder block wall, which is the southeast corner of the building. These sections of wall were added on sometime in the 1960's.

The purpose of this demolition is to expose the original front of this building as it appeared in a 1937 photograph when it was a doctors office.

Remove 12 ft. section of angled wall at south face west side.

Replace this section with new wall square to the building for the same 12 ft..

The new wall will have two windows approx. 4 ft. by 6 ft. 6 in. with arched wooden tops to match original window and door openings on south face east side. Original window and door openings will be utilized with new window and door in

a style to compliment the 1937 photograph.

The door opening on the east facing wall will be reworked to match the other door opening and a similar door will be installed.

Foundations and structural headers are in place and will not be moved or altered. The new wall section will be built on the foundation using 2x6 framing and OSB sheathing and windows will be installed under the headers.

New flooring will be installed over the concrete slab that becomes exposed inside by moving this wall. R-19 insulation will be used in the new wall, with 1/2 in. sheetrock. and paint to match existing walls in room.

The entire south face of the building, new and existing original will be refaced with red brick consistent with some of the older buildings in the downtown area, complete with arches over windows and doors and decorative cornice at the top of the parapet.

The rest of the building will remain as it is with the exception of refinishing the original wooden floors.

Blue prints, consultation, demolition, debris removal, material acquisition, and construction will be supplied by Norseman Const. Inc..

Site maps, surveys, city and county approval and permits will be supplied and acquired in conjunction with the building owner.

Respectfully, Joel (Moe) Husen Norseman Const. Inc.
