Subject: 535 W. 7th RE: Hearing 3/28/22 COMMENTS FOR RECORD
Date: Friday, March 25, 2022 5:04:58 AM

Dear Director and Development Staff:

First item: Thanks for the notice about the above property change. Additionally there was no email address on the notification and the "goto" link was not active.

If you are not the correct addresses please forward to the correct addresses and inform me of the correct emails. Logically, also, please forward to the Board of Adjustment Commissioners. I will be out of town so can not attend the meeting that you cordially gave us notice of.

Second Item: Concerns for the record. We live in Mission Townhomes across the street. We are concerned about views; overbearing houses cluttering up our street and blocking our marvelous views to the west.

The property drops going toward the open pastures. My comment for the record would be to limit the R2 lots to single story with walkout basements as the first and existing house on Parcel B is now. Is that an unreasonable request? Also to set the structures to the back edge of the property line, thus setting them in the land drop, somewhat below or slightly above the street line.

For the two house on the pasture, can they be encouraged to not build them over the garages, thereby keeping them at 2 stories, and discourage utilizing the 35 foot height limit in Salida.

thanks for hearing and listening to us. We do not want this special town to be to dense or cluttered.

Gratefully, Bruce Cairns
540 W 7th St. Unit 4, Salida, CO 81201
Email, above.
