#### Please explain your interest in serving on the Library Advisory Board

I value the variety and quality of books, events, programs and services the public library provides. I feel communities are strengthened by public access to information and connection fostered by our library, not to mention the safe and welcoming space the physical building offers some of our most vulnerable community members. And I hope that, through public input, we can continue to grow and target library offerings for all community members and therefore continue to strengthen our community. So hopefully my input and participation will help the Hoodland Library do so!

#### What knowledge, education, or skills would you bring to the Board?

I have a variety of professional experience in non-profit management; identifying, developing and delivering public service programs; and leading change, including cofounding a local non-profit (Mt. Hood Unida), several years as a professional change manager (consultant and at NIKE), and a senior leadership position at a public radio and television station serving 21 counties in two New York and Pennsylvania. I also have certifications in human-centered design, a methodology for designing better programs and products based on the needs and interests of the users. I am also a regular volunteer in our local schools and communities.
