Please explain your interest in serving on the SandyNet Advisory Board

My interest in serving on the SandyNet Advisory Board stems from my deep-rooted connection to Sandy's technological landscape, particularly my previous experience as an IT intern at SandyNet from 2014-2015. This role not only fostered my passion for community-oriented technology solutions but also provided a foundational understanding of SandyNet's operations and challenges. I am eager to bring this perspective back to the board, contributing to the strategic enhancement of our city's digital infrastructure and services.

What knowledge, education, or skills would you bring to the Board?

My background in IT support, data recovery, and my tenure as an IT intern at SandyNet equip me with a unique blend of practical and theoretical insights into telecommunications. Coupled with my academic credentials in CSIS and Graphic Design from George Fox University, I bring a comprehensive skill set that includes technical expertise, creative problem-solving, and firsthand experience with SandyNet's infrastructure and community impact. This combination of knowledge and experience positions me to offer valuable contributions to the board's deliberations and decision-making.
