Public Works Water

Wastewater

Streets

Stormwater

6.4 6.5	Revisit the Pleasant Street Master Plan with minimal reliance on consulting services. Apply for an ODOT Safe Routes to School Grant with cooperation and financial contribution from the Oregon Trail School District.	Need further clarification from Council	
6.6	Develop short-term rental regulations and pursue flexibility for usage of associated revenue.	In progress.	Transit Lodging Tax is now applicable to short-term rentals, and the tax rate has been updated. Further regulations will be discussed after the Housing Production Strategy is adopted in late 2025.
6.7	Develop policies and pursue funding opportunities to make the community more resilient against wildfire and other natural hazards.	In progress.	
6.8	Study options for updating the City's regulations on outdoor burning.	Complete.	Scheduled to be brought to Council for adoption on November 3rd.
	Ensure compliance with state legislative and regulatory mandates through code amendments that are	·	
6.9	responsible and reflect the community's values.	Ongoing.	
6.10	Continue to improve and refine code language, policies, and practices related to code enforcement.	Ongoing.	
6.10.1	Establish a code enforcement abatement fund.	Complete.	\$50,000 allocated in the budget; to date two RVs has been removed and abated from right-of-way, additional abatements will occur throughout the biennium.
6.11	Continue to pursue options for cost recovery.	Complete.	2% increase in application and permit fees to reflect inflationary increases in the cost of providing service; Will continue with this practice annually.
7.1	Complete Alder Creek Water Treatment Plant improvements	In progress	
7.1 7.2	Complete Alder Creek Water Treatment Plant improvements.	In progress.	
7.2	Progress construction of Portland Filtration Transmission System to near completion. Complete Water Management Conservation Plan Update.	In progress. In progress.	Actively working on this; due late 2025.
	Explore a tiered rate structure for water consumption; review and update agreements with wholesale	in progress.	
7.4	water customers.		This research and exploration will likely begin in Summer 2026.
7.5	Secure necessary funding to complete projects.	Ongoing.	Approximately \$45 million secured to-date.
7.5.1	Update system development charges.	Complete.	Adopted new rates in May 2025.
7.5.2	Pursue all options for securing outside funding assistance for infrastructure projects.	Ongoing.	Will continue this work as the budget is refined and other funding options become available.
7.6	Continue to comply with the terms of the consent decree.	Ongoing.	
7.6.1	Complete and adopt the Wastewater Facilities Plan Amendment.	In progress.	Actively working on this; Adoption scheduled for December 2025.
7.6.2	Complete UV upgrades and other repairs and maintenance at the wastewater treatment plant.	In progress.	UV improvements scheduled for Spring 2026.
7.6.3	Execute required CMOM and SARP programs.	In progress.	
7.7	Complete ARPA-funded grant projects before grant expiration in December 2026.	In progress.	FO Posta a construct but shall be a solution of the Control by 2025. All
7.7.1	Secure the 190 additional ERUs conditionally approved under the Capacity Assurance Program.	In progress.	EQ Basin expansion substainally completed in September 2025; All other items scheduled to be completed by September 2026.
7.8	Explore possible alternative wastewater treatment systems to facilitate targeted economic development under the moratorium.		
7.9	Secure necessary funding to complete projects.	Ongoing.	\$68 million secured to-date between loans and grants; Additional \$120 million identified but not yet secured.
7.9.1	Convert existing WIFIA loan to Gresham pipeline option.	Complete.	
7.9.2	Update system development charges.	Complete.	Adopted new rates in May 2025.
7.9.3	Pursue all options for securing outside funding assistance for infrastructure projects.	Ongoing.	Continuing to look and apply for any funding source that aligns with this project.
7.10	Provide comprehensive and accessible information on the City's water and wastewater infrastructure challenges, including past decisions, legal restrictions, evaluated options, proposed solutions, funding strategies, and implementation plans.	Ongoing.	Actively working with communications firm, Praxis, to update website, create new communication tools, and distribute information to community members.
7.11	Complete pavement management plan, ensure pavement plans are visible and accessible to the public.	In progress.	Will be completed in late 2025.
7.12	Complete initial study of intersection at Highway 211 and Dubarko Road to determine required budget for safety improvements.	In progress.	Initial alalysis completed by a developer several years ago. Staff is working on advancing this with our traffic engineer to provide a few potential improvements/solutions.
7.13	Design and complete ADA ramps along Highway 211 as required by jurisdictional transfer agreement.	In progress.	Completion required in 2027 per IGA.
7.14	Evaluate options to improve congestion at the intersection of Highway 26 and Ten Eyck.	Ongoing.	Initial solution would be to take jurisdiction of Ten Eyck from Hwy 26 to Pleasant so that the City can make improvements to mitigate congestion. Needs further Council discussion.
7.15	Begin development of stormwater master plan and rate study; address recovery of riparian areas as part of the plan.		RFP to be published in Fall 2025/Winter 2026.
