

# STAFF REPORT

---

**Meeting Type:** City Council  
**Meeting Date:** March 2, 2026  
**From:** Tyler Deems, City Manager  
**Subject:** Clackamas County TSP Discussion

---

## DECISION TO BE MADE:

Discuss transportation projects that relate to the City of Sandy but are in Clackamas County's jurisdiction; identify projects to advocate for inclusion in the County's Transportation System Plan.

## APPLICABLE COUNCIL GOAL:

N/A

## BACKGROUND / CONTEXT:

Clackamas County is currently working on [updating their Transportation System Plan \(TSP\)](#). The last update was completed in 2013. The current process is looking ahead to 2045. Clackamas County conducted a virtual open house in early February to receive feedback on potential future projects. Clackamas County has also asked for a staff representative to serve on their technical advisory committee. Kelly O'Neill Jr, Development Services Director, was selected to participate on that advisory committee to represent the City of Sandy. It is still to be determined what future involvement from local elected officials will look like in the TSP process.

## KEY CONSIDERATIONS / ANALYSIS:

To ensure that staff is capturing all of the projects that could benefit the City of Sandy, staff is requesting that Council provide any details on future improvements and projects that should be addressed in the TSP. Staff has developed a list of three projects that would directly benefit Sandy, and would improve traffic and safety within the community. These three projects are:

- Extension of 362<sup>nd</sup> Avenue north to Kelson Road
- Installation of stop light and related improvements at Highway 211 and 362<sup>nd</sup> Avenue
- Improvements to Ten Eyck Road at Highway 26

To assist in facilitating this discussion, staff will provide a map of Sandy and the surrounding area during the Council meeting on March 2<sup>nd</sup>. Councilors can then identify any problem areas or proposed solutions and staff will take that feedback, consolidate it, and provide it to Clackamas County for their consideration.

**BUDGET IMPACT:**

None at this time.

**RECOMMENDATION:**

Discuss transportation projects that relate to the City of Sandy but are in Clackamas County's jurisdiction; identify projects to advocate for inclusion in the County's Transportation System Plan.
