RE: Sign Variance Request for 6100 N Stemmons Fwy, Sanger, Texas

To whom it may concern:

We are submitting this variance request for signs to be installed at 6100 N Stemmons Fwy, Sanger, Texas. Company occupying building is BFG Supply Co.

Purpose is to have a visible sign on the entrance areas of the building for visitors and for shipping and receiving. The variance would increase the logo size to 52" x 113" for more visibility. Placement of the signs would be on the back sides of the building 33' up on the exterior. (see attached)

The current sign ordinance makes the signage too small for such a large building.

Thank you for your consideration,

Melissa McDorman
