Future Land Use Acreage and Distribution

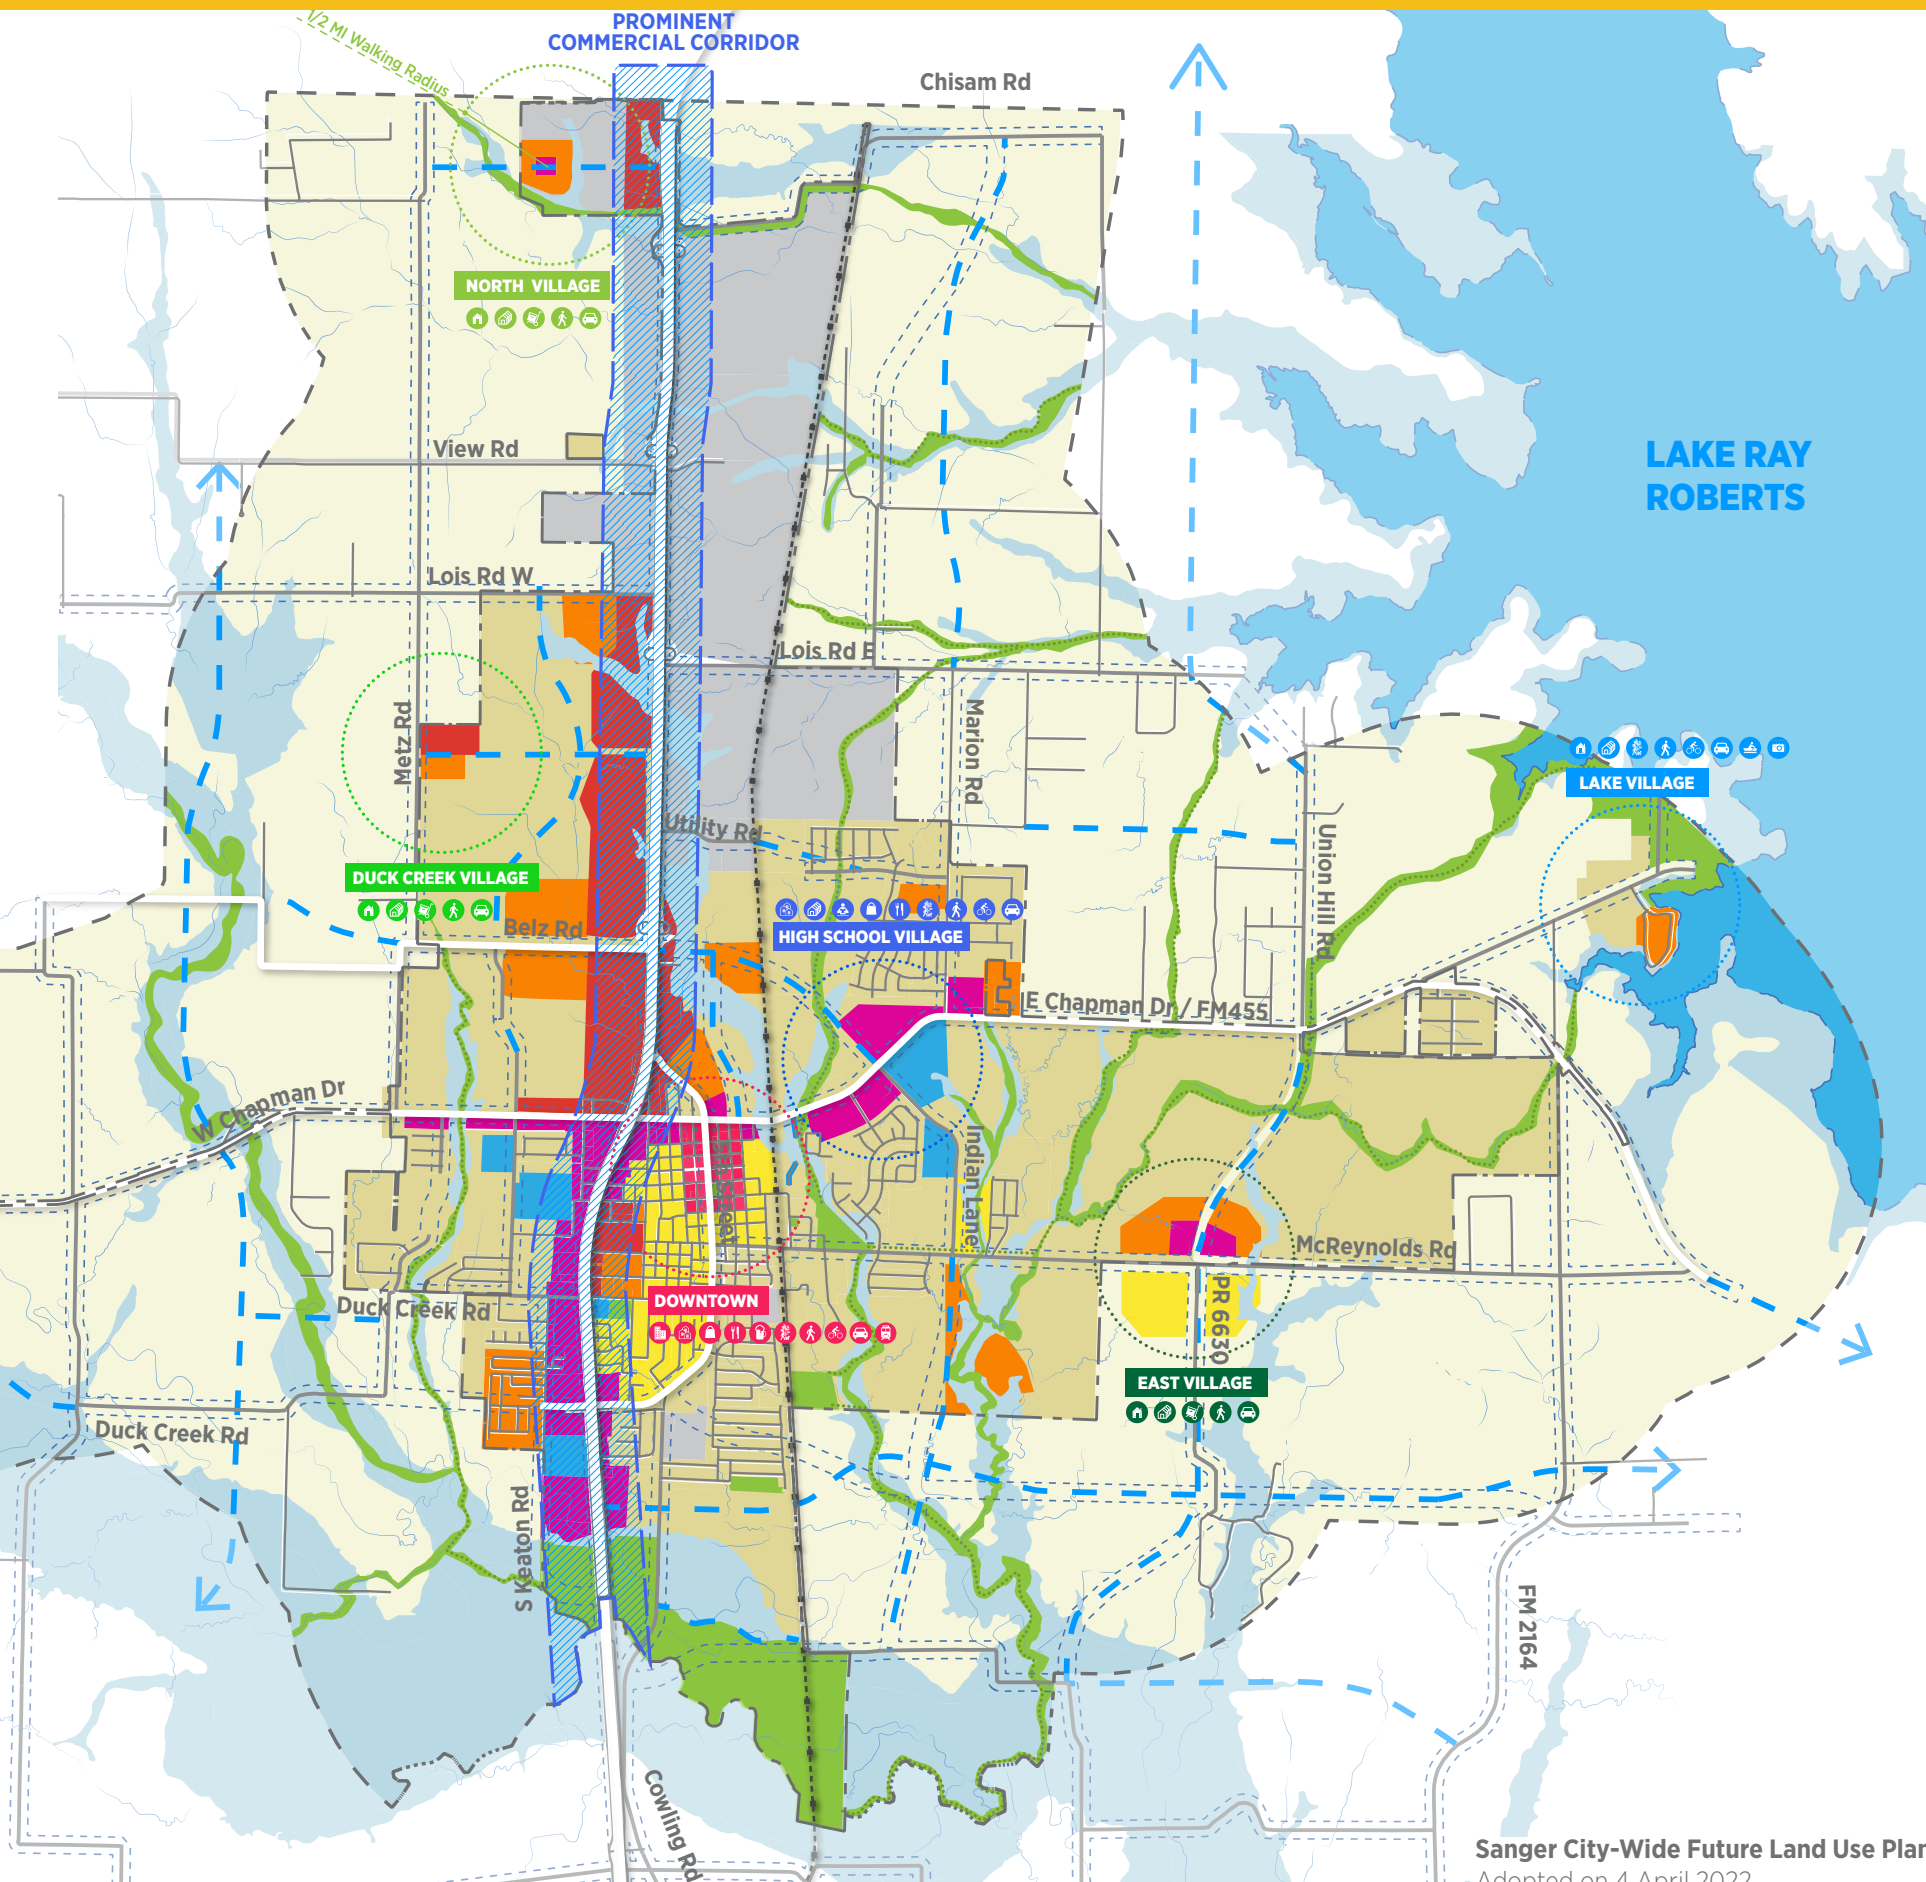

The land use projections shown in the table above are based off the Future Land Use Map. These numbers provide a general picture of how the land in the planning area (current city limits and ETJ) would be utilized based on the vision of this plan.

NOTES:

1. Areas within municipal boundary includes all the lands within existing city limits and some areas adjacent to city limits within ETJ boundary that the city oversees future growth in.
2. A Future Land Use Map is not designed to be scaled to define areas and/or acreage, it is intended, rather, to define relationships between uses.
