Description on work to be done on the façade 311 Nth 4th st Sanger Texas

We will be demoing windows, plywood and canopy, also demoing upper plywood and canopy.

We will move old rotten bucks that is existing at the top and the rotted wood.

We will remove the sign at the top of building and disconnect and cap off electrical for sign.

Dispose of all debris and rebuild new window bucks and awning bucks with treated lumber.

Install new black/ bronze windows at top with flashing and trim, rebuild three new canopies black/bronze to cover store fronts six to eight feet out with welded metal and standing seam roof.

The exterior brick will stay the same color it is now, unless when the awning gets torn down and we see that where the awning was torn down it needs to be painted, if that's the case we are considering trying to find a paint color that will make the brick look like the new rendering.
