SUMMARY:

- The City of Sanger's Code of Ordinance currently does not address Municipal Setting Designations (MSD's).
- This ordinance will establish a process and guidelines for requesting a MSD.
- MSD's are requested when a property has contamination that would typically require remediation.
- Often the remediation is costly and makes developing the property difficult.
- In certain cases these properties can apply for a MSD to allow the property to develop or be used without remediation.
- This ordinance gives City Council the ability to approve, conditionally approve, disapprove, or postpone action on the application.
