SUBDIVISION PACKET

A Plat subdividing land within the city limits of Sanger or within Sanger Extraterritorial Jurisdiction (ETJ) requires the approval of the City of Sanger. The platting process involves the preparation of one or more plats by the landowner, a review by staff, and consideration by the Planning & Zoning Commission and City Council.

PLAT TYPES: There are seven different types of plats, each with their own function.

- Preliminary Plat – A preliminary plat is required for most subdivisions, particularly those providing for dedication of public right-of-way and construction of public improvements. It is used to determine the layout of the proposed development.
- Final Plat – A final plat will follow a preliminary plat to specify in detail the arrangement of lots, the dedication of public right-of-way, and the provision of public improvements and services.
- Replat – A replat revises an existing plat and is controlling over the preceding plat. A public hearing is required for replat.
- Minor Plat – A minor plat is one creating three lots or fewer, and not requiring the dedication of right-of-way or construction of improvements. Minor plats can be approved with the preparation of a preliminary plat.
- Amended Plat – An amended plat revises a previously platted lot to correct an error or add or modify a feature. Amending plats cannot increase the number of lots.
- Conveyance Plat – A conveyance plat may be used to convey the property or interests therein. It may also be used in lieu of a final plat to record a subdivision or property. A conveyance plat is an interim step in the subdivision of land and shall contain a notation that indicates that no development is intended.
- Vacating Plat – A vacating plat removes/vacates the plat covering a tract of land before any lot in the plat is sold. The plat is vacated when a signed, acknowledged instrument declaring the plat vacated is approved and recorded in the manner prescribed for the original plat.

SUBMISSION REQUIREMENTS: The submittal requirements for each kind of plat are included in this packet.
