To Whom It May Concern:

On behalf of the City of Monticello, I am pleased to express our wholehearted support for San Juan County's initiative to create a splash pad in the City of Blanding. This project represents a valuable investment in the well-being and recreational opportunities for families throughout our county.

We recognize the importance of this endeavor and the positive impact it will have on residents and visitors alike. By fostering collaborative efforts such as this, we continue to strengthen the bonds between our communities, promoting unity and shared progress that benefit all who call San Juan County home.

The City of Monticello stands ready to support in any way, to see this exciting project brought to life.
