**Narrative:** Timothy Ananiadas requesting approval to vacate the existing subdivision lot boundaries in order to combine the property with an adjoining parcel under the same ownership. The purpose of this request is to eliminate the subdivision lot and incorporate the property into the adjacent parcel, resulting in a reconfigured property boundary and a single, unified tract of land.

**Subject: Formal Objection to Plat Vacation Requests for Lot 15B and Lot 4 (Deer Haven Park Subdivision)**

To the San Juan County Planning Commission and Board of County Commissioners:

I formally object to the plat vacation requests submitted for **Lot 15B (Ananiadis)** and **Lot 4 (Herrman)** within the Deer Haven Park subdivision in La Sal. The County should deny these vacations until enforceable deed restrictions are recorded with the San Juan County Recorder to preserve infrastructure easements, access rights, and overall neighborhood property values.

To ensure the protection and property values of the Deer Haven Park community, I respectfully ask the County to require the following conditions before any plat vacation is approved:

- **Mandatory Well Easements:** Both properties have deeded shared wells. It is critical to all co-owners of these wells to have recorded well sharing agreements in place and easements to the wells for access and maintenance. The petition for Lot 4 (Herrman) lacks any provision or recorded easement for its shared well, and the current home sits too close to the wellhead, complicating access. If granted a vacation without a recorded easement allowing access to the well by the other well owners, a dangerous precedent would be set allowing landowners to disconnect or deny water to remaining co-owners which would severely affect their property values. In order to safeguard essential water access, avoid potential conflicts and preserve neighborhood property values, I request that the County require a fully executed and recorded well easement, guaranteeing permanent access for all affected shared well owners, prior to approval.
- **Protection of Utility and Right-of-Way Easements:** Any vacation removing public rights-of-way must protect existing neighborhood infrastructure. While the proposal for Lot 15B (Ananiadis) notes that utility easements will remain, I ask that these be officially recorded as separate utility easements explicitly benefiting the remaining subdivision owners. Conversely, the Lot 4 submission lacks any utility easement data. Furthermore, the plat map for Lot 4 incorrectly omits an existing 15-foot non-motorized easement between Lots 3 and 4, and needs to accurately reflect the 6-foot non-motorized easement along the north side of Lot 4.
- **Legal Enforceability of CC&Rs:** Residents purchased land in Deer Haven Park under explicit agreement to abide by the neighborhood's CC&Rs. The County needs to clarify what covenants and restrictions remain legally binding on a parcel once it vacates a subdivision. Allowing individual owners to vacate without clear guidelines strips the neighborhood of its shared plan at the expense of the community, setting a damaging precedent for subdivisions across San Juan County.

I urge the Planning Commission to protect the community's shared infrastructure, property rights and property values by withholding approval until these critical protections are legally recorded.
