

STAFF REPORT

MEETING DATE: February 2, 2021

ITEM TITLE, PRESENTER: Consideration and Approval of the Community Library Enhancement Funds Grant Contract for Library System, Nicole Perkins, Library Director

RECOMMENDATION: After County Attorney review and approval, requesting Commissioners' approval and signatures to receive State Library funding of \$7400 for 2021.

SUMMARY

Purpose of this grant is to supplement collection development, technology for public use, retrofitting library buildings for ADA compliance, outreach programming, and Summer Reading programs.

HISTORY/PAST ACTION

The CLEF grant (Community Library Enhancement Funds) is an annual grant that is offered to qualifying Utah Libraries under the Utah State Library umbrella. In order to utilize these funds, we are required to spend the money as outlined in the summary and then file a report with the State Library with funds being spent by June 30, 2021.

FISCAL IMPACT

If approved by Commissioners, up to \$7400 will be sent to the County Library System to use for one or more purposes as outlined in the summary. This is paid up front and is not a reimbursement grant. This is a huge help for our Library System and helps us to purchase programming, technology, and develop our collections that we otherwise would not be able to afford.
