

COMMISSION STAFF REPORT

MEETING DATE: January 14, 2022

ITEM TITLE, PRESENTER: Consideration and Approval of a Contract for the San Juan County Hazard Mitigation Program Grant-Pack Creek Fire with Jones & DeMille for \$89,670, Mack McDonald, Chief Administrative Officer

RECOMMENDATION: Make a Motion Approving the contract

SUMMARY

In October, we released an RFP seeking an engineering firm who can assist the County in applying for the Hazard Mitigation Program Grant for the Pack Creek Fire after realizing there will always continue to be a problem with flooding, debris and a witnessed need to slow down the water energy in that area. The County had two companies submit their proposals, one by Wood Environmental & Infrastructure Solutions, Inc and the other by Jones & DeMille Engineering. A Selection Committee was formed to evaluate the proposals; Jones & DeMille was ranked as the most responsive proposal.

In December, the San Juan County Board of Commissioners approved the exclusive right to negotiate a contract with Jones & DeMille

HISTORY/PAST ACTION

N/A

FISCAL IMPACT

\$89,670 of Grant funds.
