10.20.120 COMMERCIAL ZONES

- A. Objectives And Characteristics: Santaquin desires to promote and strengthen the community's quality of life, city's tax base necessary for sustaining essential government services, tourism and general commerce. Residential development does not generally provide enough tax revenue to cover the costs associated with these efforts. City revenue generators usually include job centers, retail and office development, product manufacturing and warehousing, agribusiness and high technology industries. These economic opportunities are necessary for the city's long term financial sustainability and viability. Commercial zones are therefore appropriate to guide business activities to locations which will be advantageous to local residents, general consumers and businesses themselves while accomplishing the goals and policies of the city's general plan.

Commercial zones within Santaquin City should accomplish the following:

1. These zones should be characterized by a harmonious grouping of a variety of stores, specialty shops, office buildings, or other permitted uses to meet the shopping needs of the community and surrounding areas.
2. These zones should facilitate business retention and expansion while attracting businesses compatible with the city identity and which will further the goals and policies of the city's general plan.
3. These zones shall promote new development which is characterized by well landscaped frontages, safe access and egress, proper parking design, coordinated site planning, and building architecture.
4. Emphasis within commercial zones shall be to protect the appearance of the entrances to the city and the overall image and identity of Santaquin as a community prospering in country living.
5. Commercial zones should be located adjacent to major thoroughfares or collector streets which provide ease of access for automobile traffic without passing through residential areas and any impacts to existing neighborhoods should be mitigated by new development.

6. Commercial uses should be widely accessible, clustered near the center of their service areas and developed compatibly with the uses and character of surrounding districts.
 7. Commercial areas shall have safe and convenient pedestrian access to and from shopping and service areas. (Ord. 03-04-2014, 3-19-2014, eff. 3-20-2014)
- B. Commercial Zones Established: The following commercial zones are established within the city. Parenthetical notations shown for each zone shall mean to represent such zone and all applicable parts where utilized within this code.
1. Interchange Commercial (C-1): This zone is created for application around and near those major transportation routes and nodes which offer visitors, tourists, and residents their first impressions of Santaquin. Additionally, the area would serve to promote and facilitate travel oriented businesses. Businesses within this zone will generally stand alone but some medium size box stores with satellite commercial buildings will be allowed where such is shown to complement the identity of the city and surrounding residential neighborhoods will not be unreasonably disrupted. Special emphasis is to be placed on the properties near the Main Street freeway interchange and along Highway 198.
 2. Professional Office (PO): This zone is created for application around and near major and minor transportation nodes, which may function as gateways to the city's residential areas, but be conducive to professional office uses. Buildings and uses within this zone should have limited impacts on adjacent residential uses through appropriate hours of operation, noise buffering, aesthetic considerations, and little intrusion of traffic into residential neighborhoods. (Ord. 03-04-2014, 3-19-2014, eff. 3-20-2014)
- C. Permitted Uses: General land uses within commercial zones shall complement the city's general plan for their respective areas. Those uses allowed in the city's commercial zones are listed in the following matrix. Abbreviations and alphabetic use designations in the matrix have the following meanings:

10.20.210 AGRICULTURE ZONES

- A. Objectives And Characteristics: Santaquin recognizes agriculture lands and uses as viable and of paramount importance in maintaining the culture and identity of Santaquin. The city objectives in establishing agriculture zones include, but are not limited to, the following:
1. Buffering and protecting agricultural operations and lands from encroachment of urban development.
 2. Permitting uses that enable agricultural operations to function and remain viable in the area but which are incidental thereto and do not change the basic character of the district. These uses may include farm based businesses to supplement farm income, e.g., experiential farming businesses (i.e., bed and breakfast inns, farm themed commercial uses similar to the Red Barn, farmers' markets, pick your own fruit markets, etc.).
 3. Limiting those land uses and activities that could conflict with agricultural uses or adversely affect the long term investment in the land and improvements in areas designated for farmland preservation.
 4. New development adjacent to agriculture areas will be more aware of impacts associated with common agricultural practices and be required to mitigate those impacts to and from the adjacent agriculture operations.
 5. Assuring that farm related housing can be adequately serviced by necessary utilities.
 6. Maintaining as much as possible the agricultural heritage of Santaquin City as further indicated by recognition of Santaquin as the Utah farming heritage district for the state of Utah. (Ord. 11-03-2008, 11-12-2008, eff. 11-13-2008)
- B. Agriculture Zones Established: The following agriculture zones are established within the city:
1. Agriculture Zone (Ag): The agriculture zone is established to highlight those agriculture operations and lands most suitable for agriculture operations within the city while allowing housing and other accessory uses necessary for such operations to remain viable. Development within this zone will be limited and only allowed where the above objectives and characteristics are furthered.
 2. Residential Agriculture Zone (R-Ag): The residential agriculture zone is established to allow limited development within and near agricultural operations which would allow property owners to develop a portion of their property while maintaining a rural and agrarian character in the city through clustering development, preserving open spaces and view corridors, and limiting infrastructure costs. (Ord. 11-03-2008, 11-12-2008, eff. 11-13-2008)
- C. Permitted Uses: General land uses within the agriculture zone shall complement agrarian uses on properties within this zone. All land uses and future development decisions should be based on the goals and policies of the city's general plan land use element.

Abbreviations and alphabetic use designations in the matrix have the following meanings:

It is also intended to be used to regulate development densities in areas that are determined to have geologic hazards or constraints or where the City has determined needs for increased open spaces or land preservation. Title 10 Chapter 20 Section 220 is amended as follows: (underlined text is added, stricken text is deleted)

10.24 CONDITIONAL USES

10.24.010 PURPOSE

Uses designated as conditional uses require special consideration from the planning commission. These uses may or may not be appropriate for a specific piece of property. The purpose of this chapter is to allow the planning commission to evaluate the appropriateness of designated conditional uses on a case by case basis. The conditional use permit procedure allows the planning commission to approve, deny, or conditionally approve any request for a conditional use permit. (Ord. 2-01-2002, 2-5-2002, eff. 2-5-2002)

10.24.020 PERMIT REQUIRED

No person or entity shall operate or conduct a use designated as a conditional use within the applicable zone without first obtaining a conditional use permit from the city. (Ord. 2-01-2002, 2-5-2002, eff. 2-5-2002)

10.24.030 PROCEDURE FOR APPROVAL

The applicant for a conditional use permit shall submit a completed application form and a site plan with sufficient information to allow the planning commission to make a well informed decision. The applicant shall also pay a fee in an amount established by resolution of the city council with the application. (Ord. 2-01-2002, 2-5-2002, eff. 2-5-2002)

10.24.040 NOTICE

The applicant for a conditional use permit shall provide written notification to all adjacent property owners as outlined in SCC 10.68.110 paragraph D. (Ord. 11-03-2003, 11-19-2003, eff. 11-20-2003)

10.24.050 PLANNING COMMISSION APPROVAL

The planning commission shall be the final approving authority, subject to SCC 10.24.100, for all applications for conditional use permits. The planning commission shall review the proposed project plan while considering the criteria and factors set forth in this chapter. The application for a conditional use permit shall be approved, approved with conditions, or denied. Because every application is unique and different, planning commission review, and approval or denial, of every conditional use application shall take into consideration only those facts and information pertaining to the application specifically and may not take into consideration information or base decisions upon other similar projects or uses, or denial thereof, within the city. The validity of the permit shall be conditioned upon strict compliance with applicable city ordinances, the approved site plan, and any additional conditions of the planning commission. (Ord. 2-01-2002, 2-5-2002, eff. 2-5-2002)

10.24.060 CRITERIA AND FACTORS TO BE CONSIDERED
