

MEMORANDUM

October 15, 2021

To: Santaquin City Mayor and City Council
From: Jon Lundell, P.E. City Engineer
RE: Harvest View Phase 2 Pickleball Sports Lighting

Mayor and Council Members,

To go along with the Harvest View Phase 2 improvements, it is proposed to purchase the sports lighting for the pickleball courts from Musco Sports Lighting, LLC. Musco is the State of Utah's Best Value Contract Company for field lighting. Musco also now provides their lighting under Utah State Bid pricing.

These lights will be the same intensity that were installed for the Harvest View soccer fields, which have a fifty (50) foot-candle illumination. They will also be LED fixtures for power efficiency and effective lighting of the courts. For your reference, I have attached the state bid provided by Musco.

There are sufficient funds in the park impact fees fund to cover the total cost of the project.

I am happy to answer any questions you may have regarding the pickleball courts lighting.

Recommendation:

Motion to award a contract to Musco Sports Lighting, LLC. for an amount not to exceed \$142,864.00 for the pickleball court sports lighting.
