

Memorandum

To: Santaquin City Mayor and City Council Members

From: Dennis L. Marker, Operations Manager

Date: January 27, 2021

Re: Tanner Annexation - Resolution 02-01-2022

This resolution does not approve the Tanner Annexation. This is only an indication of intent to consider and evaluate the merits of this annexation. Approval of this resolution initiates the investigation process and timelines required in state code for receiving public comment.

After approval of this resolution, the city must send notices of the potential annexation to the County and other potentially affected utilities, government entities, and property owners. A public hearing is anticipated to be on the City Council's February 15 agenda to accept any public comments about the matter. After the public hearing, the City can take as much time as it feels appropriate to study elements of the annexation. Only after the Council feels there is satisfactory evidence of public benefit for the annexation will an ordinance be drafted to approve the annexation.
