RE: Surplus Radios

Santaquin Fire and EMS has 20 portable radios, and 6 mobile radios that we need to surplus. These radios are approximately 18 years old, and no longer supported by Motorola. In addition to the age, these radios will not function on the new UCA system going live in October 2024.

These radios have been replaced over the last several years, with the final radios budgeted for in FY 24-25, with the new APX Series radios that will work on the system.

Our goal is to surplus these radios and to be able to donate them to an agency that has a need for spare parts.

Along with the radios, we have (3) six slot battery chargers that need to be surplus out as well.

Mobile Radios Model XTL 2500 qty 6
Portable Radio Model H46UCH9PW7BN
