ROGUE RM-6 MONSTER RACK 2.0

The RM-6 Monster Rack 2.0 is a fully customizable power rack designed and built in the USA to meet the high-performance demands of elite athletes, training facilities, and home gyms. Constructed from 3x3" 11-gauge steel and reinforced with oversized 1" hardware, this rack is engineered for unmatched stability, durability, and long-term reliability. Every rack is laser-cut, welded, and finished by the skilled Rogue manufacturing team in Columbus, Ohio, ensuring precision and craftsmanship in every detail.

ENGINEERED FOR VERSATILITY

Choose from four upright heights (80", 90", 100", and 108") with multiple depth options (24", 30", and 43") to fit your training space and goals. The rack features laser-cut hole numbers on both the front and back of the uprights, along with a keyhole pattern for compatibility with an expanding lineup of Monster Series attachments. Whether you're adding storage, pull-up bars, or advanced cable systems, the RM-6 evolves with your needs, delivering a versatile, modular design.

PREMIUM FINISHES, AMERICAN CRAFTSMANSHIP

The RM-6 Monster Rack is proudly made in the USA, using locally sourced materials and state-of-the-art manufacturing techniques like laser cutting and robotic welding to ensure exceptional quality and precision. Available in 11 durable powder coat finishes, as well as a premium stainless steel option, the RM-6 is built to withstand years of heavy use while offering a sleek, customizable look. Further customize your rack choosing between a number of pullup bar and crossmember options, down to the finish of hardware
