

4-Stop River and Constitution

The purpose is to increase crossing safety for publicly access areas.

When Valley Village opens that will increase the amount of kids in the area on the daily.

Staff would like council approval to make this a 4-way stop and add cross walks at the areas identified in the map. Money is available in the streets budgets for this.

Total cost for the improvements under \$600.00 (paint, posts, signs, labor).
