HUMPBACK WHALE SCULPTURE EMERGING FROM INFINITY POOL

Municipal Project: “Tahku” Humpback Whale Statue

Location: Near the Seawalk in Juneau, Alaska

Nature expert and artist R.T. “Skip” Wallen sculpted “Tahku,” a life-scale, 6-ton, 25-foot-tall breaching humpback whale. Set in an infinity pool on the banks of the Gastineau Channel makes the project even more realistic.
