Totem and Tourism Update

1. Oyster Pole:

A carver has been contracted to carve this pole. There is a log at the sort yard that I am arranging to be delivered to Sitka via Sampson Barge. Sampson is trying to arrange several logs at once and as soon as the order is finished it will be delivered.

2. Chief Ebbits Pole:

A carver has been identified for this pole. He found a tree, still standing, that is long enough for this pole. He is working on a proposal to obtain the tree, get it delivered, and carve. Once we get his estimate we can work on an Artist Contract.
