City Council Workshop  
October 16, 2024**

**TO:** Mayor and City Council

**SUBJECT:** Distressed Property – 119 S. Washington

**INITIATED BY:** Administration

**AGENDA:** New Business

---

**Background:** On July 17, 2024, the city contacted the property owner expressing that at a minimum, the windows needed to be secured to prevent access to rodents and other pests. The property owner was given 15 days to secure the property. The City of Sedgwick commissioned a general inspection of the property located at 119 S. Washington on August 7, 2024. The inspection report lists that there is accumulation of junk and debris within the structure, deterioration of the deck structure, accumulation of junk and debris around the property, broken/missing windows, and failures to the façade of the property.

An updated inspection revealed the property owner has remediated access issues by boarding up the broken windows and securing the front door. A building permit has been pulled for the residence to install a new HVAC unit and water lines. There is still accumulation of junk and debris in and around the property and failures to the façade of the property that places the property in a blighted condition.

**Financial Considerations:** None.

**Recommendations/Actions:** To be determined.
