To Whom It May Concern:

Due to Jessica's chronic regional pain syndrome she requires mobility devices including, cane, walker, wheelchair and power scooter. She is at high risk for falls given her condition and needs widening of her driveway to 18 feet to accommodate 2 vehicles and space for her to safely ambulate to them. Due to the weather and uneven terrain she is at high risk for falls and further bodily injury. In addition, this would facilitate the use of a lift to help her in & out of her.

Jessica Christel and Jackie Baughman are owners of 2324 Broadway Avenue in Sheboygan, Wisconsin 53081. We have lived in the home since purchasing it in 2018. We have no intention of moving. We are looking at gaining approval from the City of Sheboygan to widen and expand our driveway to assist with Jessica's disability and her safety. Our plan is to have the driveway widened to the west from the cement slab that is currently under the fence gate. This would bring the west side of our driveway straight to Broadway Avenue, keeping it 6 inches from the property line. It is our intent to bring the East side of our driveway straight forward to Broadway Avenue from the Southeast corner of the garage. During this process, it would also be our intent to expand the end of the driveway, the approach, to be 23 feet wide and off of the property line. This widening will not affect any driveway on Broadway, nor will it take away from anyone's street parking. If anything, it will assist in making the street parking easier for all neighbors as our two vehicles will be in our driveway vs on the street. It is our intent to keep our sidewalk that goes from the city sidewalk to our front door, the sidewalk approach. In attached picture, current cement is grey. The addition being requested is red.

By signing this letter, you are showing your support for our project at 2324 Broadway Avenue Sheboygan, WI 53081, to take place in either 2025 or 2026. Once we seek approval from city you will receive a letter in the mail to inform you. Thank you.

Additionally, what will be the width of the current driveway and addition ? The letter states that the approach will be 23 feet, but it does not specify the width of the driveway at the property line.

My apologizes:

It will be 6 inches from property line. The survey is not correct.

The width is 18 feet.

Thank you for reaching out.

Hi Jessica,

I have a question regarding your variance application: what is the planned setback from the property line to the proposed concrete addition? The letter mentions 6 inches, while the survey shows 1 foot.
