## OUR HISTORY

As we celebrate over 100 years of making play, we look at our past to inspire and guide us and into the future as we use research and innovation to help us make the very best play, playground, outdoor fitness and recreation equipment in our history. Inspired by our legacy of innovation, customer service and creativity and continuing to challenge ourselves through exploration, analysis and continuous improvement, we fulfill our mission of bringing Play That Moves You to communities around the world. We invest in our people, our products and in the communities in which we live and work. We're more than a century old and just getting started.

Our history begins not with play, but don't worry, we get there. It begins with a weather-stripping company, J.E. Burke Company, in 1920. Started by John Edward and Ethlyn Burke on the family farm in Fond du Lac, Wisconsin, the company still stands on the land where it all began. By the late 1920's, Burke began manufacturing playground equipment and our true calling came to be.

Through three generations of the Burke family, their successor, and now President and CEO Michael Phelan, BCI Burke Company has and continues to stand by J.E. Burke's original commitment to superior quality, outstanding service and constant innovation. With each year, Burke's products continue to inspire growth, foster development and help communities and families get outdoors together.
