RE: Proposed Gerber Collision, S Business Drive II, Sheboygan

To Whom It May Concern,

The façade (South) will address the public entering the facility with timeless materials of brick and decorative block using colors and textures similar to adjacent developments. The entrance will be identified with a cantilevered canopy, signage band and storefront glazing to provide transparency to the customer area. The remainder of the building will be clad with a vertical metal panel that will be softened to the public by the screen fence and buffer landscaping.

Sincerely,

Excel Engineering, Inc.
