A RESOLUTION authorizing an adjustment to the 2022 budget to fund unanticipated plumbing repairs at the Municipal Service Building.

WHEREAS, in early fall plumbing issues were discovered at the Municipal Service Building when water abruptly stopped being fed to two restrooms; and

WHEREAS, the cause of the issue was determined to be an underground, 1.5-inch water pipe which feeds two restrooms, two water fountains, and three additional water fixtures; and

WHEREAS, the water pipe is 200 feet long and runs underneath the Municipal Service Building making it difficult to access and repair; and

WHEREAS, city staff have determined the most economical approach is to abandon the old water pipe and install new, above ground, infrastructure; and

WHEREAS, having the water pipe above ground will be beneficial when future repairs are needed.
