Budget Summary: Capital Projects-  
Public Works-Street  
Improvements  
Budget: \$57,470.00  
Budgeted N/A  
Revenue:

#### STATUTORY REFERENCE:

Wisconsin N/A  
Statutes:  
Municipal Code: N/A

---

**BACKGROUND / ANALYSIS:** In 2024, the intersection of STH 23 and Taylor Drive is scheduled to have new traffic control equipment installed. These upgrades will include new traffic signals, new control cabinet, new camera system and miscellaneous curbing/sidewalk construction. The engineering design work and the signal upgrades are being completed through a Signals & ITS Standalone program which is administered by the Wisconsin Department of Transportation. The engineering design work and signal construction upgrade cost sharing is 90% Wisconsin DOT and 10% City of Sheboygan.

**STAFF COMMENTS:** Based on the consultant's qualifications and experience, City staff feel JT Engineering, Inc. is the most qualified consultant for this design phase.

**ACTION REQUESTED:** Motion to recommend the Common Council adopt Res. No. 51-23-24 authorizing the appropriate City Officials to enter into a contract with JT Engineering, Inc. for design services related to the STH 23 and Taylor Drive intersection.
