RE: Request for Amendment to Official Zoning Map

Dear Mr. Pelishek:

Froedtert has entered into a purchase contract to acquire from the Sheboygan Area School District their 25-acre vacant site located at the corner of Taylor Dr and Saemann Ave. Froedtert intends to subdivide the site to allow for two proposed development projects:

1. A new healthcare facility containing a neighborhood hospital, surgery center, and medical clinic space. This project will be located on an approximately 12.1-acre parcel located at the southeast corner of the site, depicted as "Lot 2" on the enclosed draft CSM. This proposed land use is consistent with the pattern of development along the Taylor Dr medical and commercial corridor.
2. A new senior housing development including multiple housing options for seniors. The development is planned to include 150-200 units of independent living, assisted living, and memory care. This project will be located at the northwest and southeast corners of the site on two separate parcels containing approximately 13.7 acres, depicted as "Lot 1" and "Lot 3" on the enclosed draft CSM. This proposed land use provides a comfortable transition from the proposed Froedtert facility to the nearby single family residential neighborhood.

The proposed projects would benefit the Sheboygan community in many ways, including, without limitation, as follows:

- Brings home a group of local physicians currently practicing outside the Sheboygan market
- Centralizes range of healthcare services in a community-focused, modern medical facility, delivering patient care closer to home
- Adds a new healthcare option to Sheboygan through Froedtert's academic-based approach to medicine
- Addresses local need for senior housing indicated by Sheboygan's housing study
- As aging residents in the community move into the new senior housing, they will vacate single family homes that young families can move into

Our development team hosted a community open house on January 18 and comments from community members indicated three important themes that we are confident we can accommodate in our development plans:

1. Provide appropriate buffering between the proposed project and the adjacent residential homes that abut the site to the east. *The zoning code specifies "bufferyard" requirements that will be incorporated into our site plan.*
2. Preserve as much wooded area and wildlife habitat as possible. *A significant portion of wooded areas on the site is not slated for development and will be preserved as wetlands.*
3. During construction, be thoughtful about disruption to the neighbors and be accountable to concerns as they arise. *Our construction teams will communicate regularly with the neighbors to address concerns throughout the process. We have already created a project email that community members can use to contact the development team any time: TaylorDr.Project@ryancompanies.com*

Quite simply, these projects are aimed at meeting the needs of the Sheboygan community in a variety of meaningful ways and in alignment with the City of Sheboygan Department of Planning & Development's mission statement. Moreover, the projects will feature a wide array of green design elements, designed to minimize buildings' impacts on the environment and nature, as well as promote energy efficiency and renewable resources.

COMPREHENSIVE PLAN AMENDMENT

Concurrent with the zoning change, the proposed projects require amendments to the City of Sheboygan Comprehensive Plan as follows:

1. **Froedtert healthcare parcel:** Change land use classification from "Public Parks and Open Space" to "Institutional and Community Facilities," which aligns with the health care facilities immediately to the south.
2. **Senior housing parcels:** Change land use classification from "Public Parks and Open Space" to "Multi-Family Residential."

The proposed projects support the following Key Initiatives indicated in the Comprehensive Plan:

- **Promoting infill development and redevelopment** – *established land uses surround this parcel on all sides creating a vacant, infill site condition that is ready to be placed into service as a productive land use for the community*
- **Spur economic development and job creation** – *the proposed projects represent a \$70M+ capital investment into the community and are estimated to create 300 permanent jobs (in addition to construction jobs during development)*
- **Strengthening older neighborhoods** – *existing neighborhoods will benefit from new healthcare and housing options close to home*
- **Diversifying the City's housing stock** – *Sheboygan has a shortage of senior housing which this project delivers*

AMENDMENT TO OFFICIAL ZONING MAP

The proposed projects require amendments to the Official Zoning Map as follows:

1. **Froedtert healthcare parcel:** Change zoning classification from "Suburban Residential (SR-5)" to "Suburban Office (SO)," which aligns with the health care facilities immediately to the south.
2. **Senior housing parcels:** Change zoning classification from "Suburban Residential (SR-5)" to "Urban Residential (UR-12)."

The zoning ordinance provides the process to amend the zoning map. Subsection 15.903(4)(c)1.-3. (pages 317-318) poses the following three questions which help to justify the need for a zoning change:

1. How does the proposed Official Zoning Map amendment further the purposes of this Chapter as outlined in Section 15.005 and the applicable rules and regulations of the Wisconsin Department of Natural Resources (DNR) and the Federal Emergency Management Agency (FEMA)?
 - *The project team is very familiar with local, county and state wetland regulations. The individuals assembled have worked together to successfully obtain permits from the Wisconsin Department of Natural Resources on several projects. The proposed projects will preserve and minimize impacts to the surrounding wetlands in accordance with the requirements of the Wisconsin DNR.*

2. Which of the following factors has arisen that are not properly addressed on the current Official Zoning Map?
 - *Two of the four factors listed in the ordinance apply in this case as follows:*
 - Factors have changed, (such as the availability of new data, the presence of new roads or other infrastructure, additional development, annexation, or other zoning changes), making the subject property more appropriate for a different zoning district
 - Growth patterns or rates have changed, thereby creating the need for an Amendment to the Official Zoning Map
3. How does the proposed amendment to the Official Zoning Map maintain the desired consistency of land uses, land use intensities, and land use impacts as related to the environs of the subject property?
 - *The use, character, and densities of the proposed projects are consistent with the pattern of development along the Taylor Dr medical and commercial corridor, while respecting the character and scale of the residential neighborhoods to the north and east of the site.*

Thank you for your consideration of this matter. We look forward to working with you, the City or Sheboygan, and the community throughout the development process.

Sincerely,

Ryan Marks

3. JUSTIFICATION OF THE PROPOSED ZONING MAP AMENDMENT

How does the proposed Official Zoning Map amendment further the purposes of the Zoning Ordinance as outlined in Section 15.005 and, for flood plains or wetlands, the applicable rules and regulations of the Wisconsin Department of Natural Resources and the Federal Emergency Management Agency? _____

See attached narrative

Which of the following factors has arisen that are not properly addressed on the current Official Zoning Map? (Provide explanation in space provided below.)

- ☐ The designations of the Official Zoning Map should be brought into conformity with the Comprehensive Master Plan.
- ☐ A mistake was made in mapping on the Official Zoning Map. (An area is developing in a manner and purpose different from that for which it is mapped.) *NOTE: If this reason is cited, it must be demonstrated that the discussed inconsistency between actual land use and designated zoning is not intended, as the City may intend to stop an undesirable land use pattern from spreading.*
- ☒ Factors have changed, (such as the availability of new data, the presence of new roads or other infrastructure, additional development, annexation, or other zoning changes), making the subject property more appropriate for a different zoning district.
- ☒ Growth patterns or rates have changed, thereby creating the need for an amendment to the Official Zoning Map.
- ☐ Explain: _____

How does the proposed amendment to the Official Zoning Map maintain the desired consistency of land uses, land use intensities, and land use impacts as related to the environs of the subject property? _____

See attached narrative

Indicate reasons why the applicant believes the proposed map amendment is in harmony with the recommendations of the City of Sheboygan Comprehensive Plan.
