R. C. No. 37 - 22 - 23. By FINANCE AND PERSONNEL COMMITTEE. June 20, 2022.

Your Committee to whom was referred Res. No. 26-22-23 by Alderpersons Mitchell and Filicky-Peneski approving an amendment to the Project Plan and Boundaries of Tax Incremental District No. 16, City of Sheboygan, Wisconsin; recommends adopting the Resolution.

Committee

I HEREBY CERTIFY that the foregoing Committee Report was duly accepted and adopted by the Common Council of the City of Sheboygan, Wisconsin, on the _____ day of _____, 20____.

Dated _____ 20____. _____, City Clerk

Approved _____ 20____. _____, Mayor

III 26
Res. No. 76 - 22 - 23. By Alderpersons Mitchell and Filicky-Peneski.
June 6, 2022.

A Resolution approving an amendment to the Project Plan and Boundaries of Tax Incremental District No. 16, City of Sheboygan, Wisconsin.

WHEREAS, the City of Sheboygan (the "City") has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the City; and

WHEREAS, Tax Incremental District No. 16 (the "District") was created by the City on September 21, 2015 as a mixed-use district; and

WHEREAS, the City now desires to amend the Project Plan and boundaries of the District (the "Amendment") in accordance with the provisions of Wis. Stat. § 66.1105 (the "Tax Increment Law"); and

WHEREAS, such Amendment will:

1. Add territory from the District as permitted under Wis. Stat. § 66.1005(4)(h)2;
2. Amend the categories, locations or costs of project costs to be made as permitted under Wis. Stat. § 66.1005(4)(h)1; and

WHEREAS, an amended Project Plan for the District has been prepared that includes:

1. A statement listing of the kind, number and location of all proposed public works or improvements within the District; or, to the extent provided in Wis. Stat. § 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
2. An economic feasibility study;
3. A detailed list of estimated project costs;
4. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
5. A map showing existing uses and conditions of real property in the District;
6. A map showing proposed improvements and uses in the District;
7. Proposed changes of zoning ordinances, master plan, map, building codes and City ordinances;
8. A list of estimated non-project costs;
9. A statement of the proposed plan for relocation of any persons to be displaced;
10. A statement indicating how the amendment of the District promotes the orderly development of the City;

F+P

11. An opinion of the City Attorney or of an attorney retained by the City advising that the Project Plan is complete and complies with Wis. Stat. § 66.1105(4)(f); and

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to the chief executive officers of Sheboygan County, the Sheboygan Area School District, and the Lakeshore Technical College District, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Plan Commission, on May 24, 2022 held a public hearing concerning the proposed amendment to the Project Plan and boundaries of the District, providing interested parties a reasonable opportunity to express their views thereon; and

WHEREAS, after said public hearing, the Plan Commission designated the boundaries of the amended district, adopted the Project Plan, and recommended to the Common Council that it amend the Project Plan and boundaries for the District.

NOW, THEREFORE, BE IT RESOLVED:

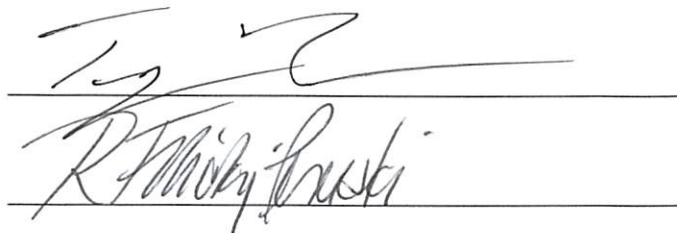

1. The boundaries of the District named "Tax Incremental District No. 16, City of Sheboygan," are hereby amended as identified in Exhibit A of this Resolution.
2. The territory being added shall become part of the District effective as of January 1, 2022.
3. The Common Council finds and declares that:
 - (a) Not less than 50% by area of the real property within the District, as amended, is suitable for mixed-use development as defined by Wis. Stat. § 66.1105(2)(cm).
 - (b) Based upon the finding stated in 3(a) above, the District was declared to be and remains a mixed-use district based on the identification and classification of the property included within the District.
 - (c) The improvement of such area is likely to enhance significantly the value of substantially all of the other real property in the District

- (d) The equalized value of the taxable property within the territory to be added to the District plus the value increment of all other existing tax incremental districts within the City, does not exceed 12% of the total equalized value of taxable property within the City.
- (e) That there are no parcels to be added to the District that were annexed by the City within the preceding three-year period.
- (f) The City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
- (g) The project costs relate directly to promoting mixed-use development in the District consistent with the purpose for which the District is created.
- (g) Lands proposed for newly platted residential development comprise no more than 35% of the real property area within the District, as amended.
- (h) Costs related to newly-platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre as defined in Wis. Stat. § 66.1105(2)(f)3.a.

4. The Project Plan for "Tax Incremental District No. 16, City of Sheboygan" as amended (see Exhibit B) is approved, and the City further finds the Project Plan is feasible and in conformity with the master plan of the City.

BE IT FURTHER RESOLVED: That the City Clerk is hereby authorized and directed to apply to the Wisconsin Department of Revenue, in such form as may be prescribed, for a "Determination of Tax Incremental Base," as of January 1, 2022, pursuant to the provisions of Wis. Stat § 66.1105(5)(b).

BE IT FURTHER RESOLVED: That pursuant to Wis. Stat. § 66.1105(5)(f), the City Assessor is hereby authorized and directed to identify upon the assessment roll returned and examined under Wis. Stat. § 70.45, those parcels of property which are within the District, specifying thereon the name of the said District, and the City Clerk is hereby authorized and directed to make similar notations on the tax roll made under Wis. Stat. § 70.65.

I HEREBY CERTIFY that the foregoing Resolution was duly passed by the Common Council of the City of Sheboygan, Wisconsin, on the _____ day of _____, 20____.

Dated _____ 20____. _____, City Clerk

Approved _____ 20____. _____, Mayor

SECTION 1: Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District (“TID”) No. 16 (“District”) was created on September 21, 2015 as a Mixed-Use District:

- The TID was created to encourage and attract mixed-use development growth and redevelopment in the downtown.
- The improvement to the area was to encourage, develop, and maintain a strong growth pattern in the City, taking advantage of key downtown development revitalization efforts to create a strong downtown.
- The improvement to the area maximized private investment within the TID 16 boundary and surrounding area.
- Other purposes for creating the TID, were to pay development incentives necessary to redevelop properties, to make public improvements needed to promote development that was in conformity with the City’s planning and development policies.
- To provide a vehicle to redevelop either vacant or underutilized properties that would not redevelop or develop under normal market conditions.

Purpose of Amendment

The purpose of this amendment, referred to hereafter as the Plan, the Amendment, or the Plan Amendment, is to:

- Add territory to the District as permitted under Wis. Stat. § 66.1105(4)(h)2. This is the first of four permitted territory amendments available to the District.
- Amend the categories, locations, or costs of project costs to be made as permitted under Wis. Stat. § 66.1105(4)(h)1. (“Project”).
- Participate with Cardinal Capital, LLC, on the redevelopment of the former Sheboygan Press Building into 29 workforce housing units.

Estimated Total Project Cost Expenditures

The City anticipates making total expenditures of approximately \$520,000 (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”) amendment. Project Costs include an estimated \$500K for developer incentives and \$20K for professional services.

Incremental Valuation

The City projects that new land and improvements value of approximately \$4,734,000 will result from the redevelopment of the former Sheboygan Press Building into 29 workforce housing units. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

Expected Termination of District

Based on the Economic Feasibility Study located within Section 9 of this Plan, the City anticipates that the District will generate sufficient tax increment to pay all Project Costs within 14 of its allowable 20 years.

Summary of Findings

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. That “but for” the creation of this District, the redevelopment projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the City. In reaching this determination, the City has considered:

The Developer’s representation that the Project is not economically viable without public participation based on extraordinary costs associated with the redevelopment of existing sites.

2. **The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the City has considered the following information:**

That the Developer is likely to purchase goods and services from local suppliers in construction of the Project, and induced effects of employee households spending locally for goods and services from retailers, restaurants, and service companies. In addition, this redevelopment will provide additional housing units in the downtown which will provide for additional economic activity.

3. **The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions.** As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this

Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the City finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

4. Not less than 50% by area of the real property within the District, as amended, is suitable for mixed use development as defined by Wis. Stat. § 66.1105(2)(cm).
5. Based on the foregoing finding, the District remains designated as a mixed-use district.
6. The Project Costs relate directly to promoting mixed use development in the District, consistent with the purpose for which the District is created. Lands proposed for newly platted residential development comprise no more than 35% of the real property area within the overall TID District. Costs related to newly platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre as defined in Wis. Stat. § 66.1105(2)(f)3.a.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property within the territory to be added to the District, plus the incremental value of all existing tax incremental districts within the City does not exceed 12% of the total equalized value of taxable property within the City.
9. The Plan for the District is feasible and is in conformity with the Master Plan of the City.
10. The City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
11. That there are no parcels to be included within the District that were annexed by the City within the preceding three-year period.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the City expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property proposed to be added to the District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the City.

The equalized value of the increment of existing tax incremental districts within the City, plus the value of the territory proposed to be added to the District, totals \$280,406,400. This value is less than the maximum of \$3,424,318,000 in equalized value that is permitted for the City.

SECTION 6:

Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

The “Statement of Kind, Number and Location of Proposed Public Works and Other Projects” set forth in the original District Project Plan approved on September 21, 2015 and those added through this amendment, include the following Project Costs that the City has made, expects to make, or may need to make, in conjunction with the implementation of the District’s Plan and this Plan Amendment.

Property, Right-of-Way, and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the City may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the City from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the City to acquire property and make it suitable for development exceed

the revenues or other consideration received from the sale or lease of that property, the net amount shall be considered “real property assembly costs” as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Acquisition of Rights-of-Way

The City may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The City may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the City related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the City may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The City may need to remove and dispose of excess material or bring in fill material to

provide for proper site elevations. Expenses incurred by the City for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the City may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Water System Improvements

To allow development to occur, the City may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the City may need to construct, alter, rebuild or expand

stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and riverbanks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the City to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the City to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to: telephone lines, cable lines and fiber optic cable. Costs incurred by the City to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the City may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation

of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the City may install amenities to enhance development sites, rights-of-way, and other public spaces. These amenities include but are not limited to landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the City are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The City may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the City executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the City are eligible Project Costs.

Contribution to the City's Revolving Loan Program

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the City may provide funds to its RLF program to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the RLF for this purpose are eligible Project Costs.

Miscellaneous

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of

informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The City may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by City employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 8:

Detailed List of Estimated Project Costs

The original TID Project Plan called for the expenditure of \$18,850,000. This amendment adds an additional \$520,000 in expenditures.

The following list identifies the Project Costs that the City plans to make in conjunction with the implementation of the District's Plan Amendment. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan Amendment. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

SECTION 9:

Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes an updated forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how remaining Project Costs would be financed, and a projected cash flow demonstrating that the District remains economically feasible.

Key Assumptions

The Project Costs the City plans to make are expected to create \$4,734,000 in incremental value by the end of 2023. Estimated valuations and timing for construction of the Project are included in **Table 1**. Assuming the City's current equalized TID Interim tax rate of \$20.62 per thousand of equalized value, and no economic appreciation or depreciation, the Project along with the current increment generated in the TID since its creation will generate \$11.2M in incremental tax revenue over the 20-year term of the District as shown in **Table 2**.

Notes:

Financing and Implementation

Table 3 provides a summary of the District's financing plan.

Based on the Project Cost expenditures as included within the cash flow exhibit (**Table 4**), the District is projected to accumulate sufficient funds by the year 2031 to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Notes: Close in 2032. To be Paid Back To General Fund.																	

SECTION 10:

Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the territory proposed to be added to the District was annexed during the past three years.

SECTION 11:

Estimate of Property to be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12:

Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and City Ordinances

Zoning Ordinances

The proposed Plan Amendment is in general conformance with the City's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan Amendment is in general conformance with the City's Comprehensive Plan identifying the area as appropriate for mixed-use.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the City's permitting and inspection procedures. The proposed Plan Amendment conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:

Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should the continued implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:

How Amendment of the Tax Incremental District Promotes the Orderly Development of the City

This Plan Amendment promotes the orderly development and redevelopment of the City by creating opportunities for mixed use development, rehabilitating, and conserving property, providing necessary public infrastructure improvements, and providing appropriate financial incentives for private development projects. Through use of tax increment financing, the City can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased housing opportunities.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District

SECTION 16:
**Legal Opinion Advising Whether the Plan is Complete
and Complies with Wis. Stat. § 66.1105(4)(f)**

Mayor
City of Sheboygan
828 Center Ave
Sheboygan, Wisconsin 53081

RE: Project Plan Amendment for Tax Incremental District No. 16

Dear Mayor:

Wisconsin Statute 66.1105(4)(f) requires that a project plan for a tax incremental financing district include an opinion provided by the City Attorney advising as to whether the plan is complete and complies with Wisconsin Statute 66.1105. As City Attorney for the City of Sheboygan, I have been asked to review the above-referenced project plan amendment for compliance with the applicable statutory requirements. Based upon my review, in my opinion, the amended Project Plan for the City of Sheboygan Tax Incremental District No. 16 is complete and complies with the provisions of Wisconsin Statute 66.1105.

Sincerely,

City Attorney

SECTION 17:

Calculation of the Share of Projected Tax Increments Estimated to be Paid by the Owners of Property in the Overlying Taxing Jurisdictions

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4.

Estimated portion of taxes that owners of taxable property in each taxing jurisdiction overlaying district would pay by jurisdiction.
