BACKGROUND / ANALYSIS:

The attached document authorizes appropriate City officials to enter into a contract with Buteyn-Peterson Construction Company, Inc. for the construction of the Evergreen Park – Area 5 Pedestrian Bridge.

This project will replace the deteriorating bridge between Evergreen Park Area #5 and the main area of Evergreen Park with a new bridge in a new, nearby location. The new bridge would provide accessible fishing areas at the edge of the river and accessible fishing bump-outs on the bridge that would allow an angler easier access to the Pigeon River. The old wooden bridge and concrete abutments will be removed and new pathways will connect the bridge to the existing main Evergreen Park road as well as the restroom facility in Area 5.

The City of Sheboygan Comprehensive Outdoor Recreation Plan identifies replacing the pedestrian bridge over the Pigeon River as a future project. This bridge would provide accessibility to the Pigeon River to support additional fishing opportunities. The project would meet a goal of the plan to “promote outdoor recreation as a means of improving public health among the community.”

STAFF COMMENTS:
