BACKGROUND / ANALYSIS: The City of Sheboygan through the capital improvements program budgets \$50,000 for the construction or the extension of mini-storm sewers throughout the City. These mini-storm sewers are constructed to help alleviate storm water issues in residential neighborhoods particularly for standing water in backyards or to alleviate issues with sump pumps that discharge at a large rate. Many times to construct these mini-storm sewers the City of Sheboygan must receive easements giving the City the permission to construct these mini-storm sewers on private property.

STAFF COMMENTS: This resolution grants the City of Sheboygan an easement so that a mini-storm sewer can be constructed on private property at the residence located at 2106 Wilson Avenue.

ACTION REQUESTED: Motion to recommend the Common Council adopt Res. No. 6-22-23 authorizing executing an easement for a mini-storm sewer at 2106 Wilson Avenue.
