

CITY OF SHEBOYGAN
REPORT 13-26-27

BY BOARD OF WATER COMMISSIONERS.

JULY 6, 2026.

To the Honorable, the Mayor and Common Council:

The Board of Water Commissioners informs the Common Council that it intends to apply to the Wisconsin Department of Natural Resources for principal forgiveness funds in the amount of \$1,000,000 through the Safe Drinking Water Loan program to use for replacing lead service lines (LSL) on private property for projects resulting in full LSL replacements. As specified by census tract data under the federal bi-partisan infrastructure law (BIL), 25% of this funding will be in the form of loan funds secured by an Alternative Revenue Pledge, and 75% will be in the form of principal forgiveness. The Board intends to apply for funds for use during the 2027 and 2028 construction seasons and for urgent spot replacement of leaking LSL. Overall, the funds will be targeted toward LSL projects in conjunction with DPW street projects to minimize construction impacts and to benefit public health. This project is known as DNR SDWLP project #4901-20.
