

6 March 2026

To: Mayor of Sheboygan and Sheboygan Public Works Committee

As the Landscape Architect for the Sheboygan Peace Park, I have been asked to evaluate the addition of a new sculpture for the park. After reviewing the pictures and specifications for the sculpture, it would be a great asset to the park. The theme of the piece fits with the mission statement and goals of the park. It will look great in the summer and winter landscape.

The peace park committee and the donor of the sculpture wanted a piece that represents the theme of the park and the City of Sheboygan. The piece of art will be a great addition to that goal.

Respectfully Submitted.
