PUBLIC HEARING NOTICE

The Sidney Zoning Commission will conduct a public hearing on a proposed Zoning Change submitted by Troy and Janelle Jensen (Hilltop Shop LLC) from B-2 (Neighborhood Business) to CLM (Commercial Light Manufacturing). The hearing is scheduled for **8:00 A.M., in the City Council Chambers, on Wednesday, October 11, 2023.**

Existing Zoning: Neighborhood Business (B-2).

PURPOSE AND INTENT

The purpose and intent of the B-2 Zoning District is to provide for such retail and service activities that are frequented by nearby residents on a day to day basis, while reducing the hazards of local traffic by limiting the kinds of retail activities to those which deal directly with consumers and produce-only goods that are sold on the premises including restaurants.

Proposed Zoning: Commercial – Light Manufacturing (CLM)

PURPOSE AND INTENT

The purpose and intent of the CLM Zoning District is to provide for the community's needs for wholesale trade, storage and warehousing, trucking and transportation terminals, light manufacturing, outdoor advertising businesses and similar activities. Such use should be related to the City's major transportation facilities and be so organized that they can be efficiently operated and yet create a minimum of traffic or other adverse effects to the residential neighborhoods of the city. Residential uses are expressly prohibited in this district.

The proposed regulations are designed to:

- Implement the 2015 Sidney Growth Policy;
- Secure the public from fire and other dangers;
- Promote public health, public safety, and the general welfare; and
- Facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements.

In addition to the above items, the Zoning Commission will consider the following items in the adoption of zoning regulations:

- The recommendation of the City Zoning Administrator;
- The recommendation of the City Contracted Planner;
- The reasonable provision of adequate light and air;
- The effect on motorized and nonmotorized transportation systems;
- Promotion of compatible urban growth;
- The character of the district and its peculiar suitability for particular uses, and
- Conserving the value of buildings and encouraging the most appropriate use of land throughout the jurisdictional area.
