SUMMARY

INTRODUCTION

The purpose of this agenda bill is to obtain authorization to surplus replacement vehicles and equipment for the 2025-26 Biennium.

BACKGROUND

The Equipment Replacement and Repair (ER&R) Fund was established in 2005 to set aside funds annually for the replacement of vehicles or equipment as they reach the end of their useful lives. Once a vehicle is due for replacement, and with Council approval, the City draws upon the accumulated funds to pay for the replacement without any additional borrowing or interfund transfers. Equipment viable enough to be surplus is sold at auction. Money produced in the surplus sale or auction process is placed back into the ER&R fund.

ANALYSIS

Administration is recommending the surplus of thirty-three (33) existing ER&R vehicles and equipment for the 2025-26 Biennium.

BUDGET IMPACTS

No budgetary impact.

NEXT STEPS

Following council approval, staff will continue forward removing reusable equipment, removing all city markings, title /licensing, bill of sales, and prep asset for sale. Working with auction vendor Govdeals.com to place vehicles and equipment for sale on online website. Post auction, working with transport staff, sale paperwork, and scheduling new owner pick up, transport. All sales moneys are handled through the Auction vendor and sent by check to our finance to be placed back into the ER&R fund.

PROPOSED ACTION

Move to approve Resolution 1703 authorizing the surplus of Vehicles and Equipment Replacements for the 2025-26 Biennium.
